

FAQs for DE-UZ 219 - Office Equipment with Printing Function (Printers and Multifunction Devices) (Edition 2021)

Chapter	Question	Answer
3.5	<p>Why is the notation for LWA,c different in the English and German edition?</p> <p><u>English edition:</u> Statistical upper limit A-weighted sound power level</p> <p><u>German edition:</u> garantierter A-bewerteter Schalleistungspegel</p>	<p>In the English edition of the DE-UZ 219 the notation for LWA,c is used according to ISO 9296, this notation was changed during the last revision of the standard. It was decided to use the former notation in the German edition of DE-UZ 219, as consumers are used to this notation. The value to be declared in ISO 9296 (2017) is still the same as in the version of the standard from 1988.</p>
