

EcoNatural 400

Toilet paper standard rolls

Cod. 811832A

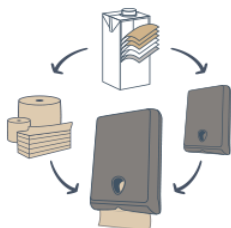

TP ECONAT 400 6X5 ECOL FSC

Update : 16/01/2025

DESCRIPTION

EcoNatural 250 toilet roll is made from Fiberpack®, the new raw material from recycled food cartons. Indeed, Lucart Professional offers a second life to food cartons!

Thanks to an **exclusive mechanical process**, Lucart is able to separate the materials from the food cartons in order to recycle them completely. The cellulose fibres, which are similar in quality to pure pulp, become **Fiberpack®**, which is used to make EcoNatural wiping products. Aluminium and polyethylene become **Al.Pe.®** used in particular to manufacture EcoNatural Flow appliances.

By choosing the EcoNatural range, you are making a concrete gesture for the planet: reducing waste and preserving natural resources.

This pack of 6 rolls of 400 sheets, with 2 ply, offers all the advantages of **compact products**: less storage, less handling, and therefore **savings**!

EU Ecolabel certified, this product complies with rigorous environmental criteria. In addition, Lucart's Sustainable Packaging Programme is expressed in this product through its eco-responsible packaging made from 80% recycled polyethylene.

Find out more about our EcoNatural concept, the **only PAPER + DISPENSER system** that recycles 100% of food cartons.
