

Product Introduction:

Sanctified Zone KidsSafe Multi-effect Mineral Interior Wall Paint is a coating primarily composed of minerals, offering excellent performance in stain resistance and washability. Its low VOC content complies with the national standards for interior wall coatings used in children's room decoration, making it suitable for various home wall decoration needs.

Product Features:

- (1) Provides strong coverage, enhancing the wall's appearance and optimizing the living environment experience;
- (2) Contains special functional additives that help maintain wall cleanliness and offer longer-lasting protection;
- (3) Features exceptional scrubbing resistance, making wiping easy and facilitating wall cleaning and maintenance;
- (4) Offers breathability, adapting to humid environments and reducing wall mildew issues.
