Dear Reader,

In the world of mainstream and mass production, we decided decades ago to produce only high-quality, well thought-out and durable functional furniture.

At first glance, not so profitable for us, because the furniture can last a lifetime and beyond. However, in view of our responsibility to future generations, we believe that this decision has no alternative and so we continue to go this path.

This consistent attitude is typical for a family business deeply rooted in our region. Landscape shapes people and so, in addition to the characterizing roughness of the Swabian Alb, there is still enough room for great empathy and truthfulness.

Martin Moll

**Martin Moll** is responsible for the development and design of the moll products with passion and flair.

# FOR GENERATIONS

# LONGEVITY

Longevity is one of our most important corporate values. Our promise is to produce furniture for generations:

1. Our products grow with you. From children to adults – our products adapt ergonomically to their users.
2. Additions allow the furniture to be flexibly adapted to changing needs.
3. For us, sustainability is not limited to the use of regional materials, but also means ensuring a high quality of workmanship, so that our products can be passed down through generations.
4. The timeless design of our products also ensures that they will be used for a very long time.
5. Our product promise includes a 5-year quality and after-sale guarantee.

# INNOVATION

Healthy learning and working. What does ergonomics actually mean? Ergonomics means taking as much of the strain as possible off the body and not forcing it to adopt forced postures. This is especially important during the development phase for children.

## How does ergonomic furniture work?

Ergonomic furniture has a preventive effect and protects against postural damage. It is flexible, functional and variable in its adjustment options and offers sufficient legroom. Ergonomic furniture thus promotes a natural and upright sitting position, supports the spine and protects against postural damage in the long-term.

Our innovations are related to ergonomics, functionality and the optimization of the working and learning environment. We can ensure the long-lasting quality of our furniture through our patented functions. This means that our furniture is not only a long-term investment, but is also highly economically viable for our customers in the long-term.

# FUNCTIONS

## TILTING MECHANISM

Depending on the product, moll children's desks offer different levels of comfort regarding the tilting mechanism of the desk top. To ensure that nothing slips off the tilted desk top, all Winner and Champion versions always come with a magnetic anti-slip device that can also be used as a ruler and magnifying glass. With the Joker, a simple anti-slip device is clamped to the edge of the desk.

### JOKER

#### tilting mechanism – latching position

The Joker desk top can be easily tilted with the integrated spring support through 6 levels up to 16 degrees. At the same time, the latching prevents the plate from falling back uncontrolled.

### WINNER

#### tilting mechanism – brake fitting

The desk top can be continuously raised and lowered by up to 18 degrees to the desired angle using a lever under the desk top. The adjustable fitting brake prevents the desk top from falling back unbraked.

### CHAMPION

#### tilting mechanism with cable pull technology

The desk top can be tilted gradually up to 20 degrees using a cable under the front edge of the desk. The tilting mechanism with the patented safety clutch provides excellent pinch protection.

# FUNCTIONS

## HEIGHT ADJUSTMENT VARIANTS

**Class:c**

**omfort)**

**express**

Height adjustment for children's desks is essential for us, which is why we hold three patents for height adjustment mechanisms:

### Class:c

is characterized by a manual hook fitting and the desks can be correctly adapted to the users in just a few simple steps. Height information printed on the base helps with correct adjustment.

10-stage  
hook fitting

Adjustment range: 53 -82 cm

Height: 1,20 - 1,90 m

### omfort)

is characterized by an easy-to-use cable spool that allows the desk height to be continuously adjusted. The rope spool can be attached to the desk base and removed again for safety after setting the height correctly. Height information printed on the base helps with correct adjustment.

Infinitely variable height  
adjustment via cable pull

Adjustment range: 53 -82 cm

Height: 1,20 - 1,90 m

### express

has a large mechanical adjustment range. By pressing the control lever, the desk can be adjusted faster than a person can get up - and all without electricity. The spring force of the desk can be adjusted according to the desk load, completely weight-neutral. The height adjustment can also be blocked.

Stepless quick height adjustment  
to sitting or standing height

Adjustment range: 69 -114 cm  
With Height Adapter: 79 -124 cm

Height: 1,55 - 1,95 m

# FOR US

From small to tall

# DESKS

## 300 JOKER

The frame is equipped with the Classic height adjustment.

The runners are made of powder-coated steel and feature castors on the ends so that the desk can be moved easily.

The body is made of melamine resin-coated wood-based board.

One-piece and easy-to-use, tiltable desk top with rounded corners.

# ADDITIONS

## 350 Drawer

- ⇄ 100 cm | ⇄ 36 cm | ⇄ 5 cm | ⚖ 3,193 Kg | 📦 0,026 m³ | 🗑 1
- Grey drawer with divider and handle profile
- Plenty of storage space without restricting legroom
- Retrofitting is possible
- Loadable up to 6 kg

- **Accessories:** Orga-Set

## 400 Side Top

- ⇄ 40 cm | ⇄ 67 cm | ⚖ 5,297 Kg | 📦 0,037 m³ | 🗑 1
- Side horizontal shelf with rounded corners, especially recommended for tilted desk tops
- Fastened via two supports on the side of the desk
- Decor: white
- Material: melamine resin-coated wood-based board
- Retrofitting is possible on the left or/and right side
- Loadable up to 12 kg

- **Accessories:** Baskets SQ/RD

## 401 Flex Deck

- ⇄ 113 cm | ⇄ 22 cm | ⇄ 69 cm | ⚖ 14,082 Kg | 📦 0,077 m³ | 🗑 1
- Multifunctional wall with two shelves and a magnetic board incl. four magnets
- Additional shelf space above the desk top
- Fastens via two brackets on the back of the desk
- Two corner brackets made of aluminum (lateral support)
- Aluminum colored metal parts
- Decor: white
- Material: melamine resin-coated wood-based board
- Retrofitting is possible
- Loadable up to 12 kg

- **Accessories:** Utensilo Behind, Baskets SQ/RD

## 303 304 WINNER

Leg frame optionally available in the **Classic** or **Comfort** version.

The runners are made of powder-coated die-cast aluminum and have castors in the rear part, so that the desk can be easily moved.

The desk is made of melamine resin-coated wood-based board.

Optionally with a one-piece or divided tiltable desk top.

There is a colored strip and cap magazine in the handle profile.

- Magnetic board can also be used as a whiteboard
- Additional shelf space above the desk top
- Rounded shelves
- Two aluminum corner brackets on the upper shelf (lateral support)
- Fastened by two supports on the back of the desk
- Material: melamine resin-coated wood-based board and aluminium profile
- Color: white
- Retrofitting is possible

- **Accessories:** Utensilo Behind, Baskets SQ/RD

## 307 CHAMPION COMPACT

The Champion Compact combines all the plus points of the Champion for the smallest of spaces.

Thanks to its compact dimensions, it is the ideal solution for small children's rooms.

The desk body is made of melamine resin-coated wood-based board.

With two side tops or a flex deck, it grows in height and width. This makes the Champion Compact a highly flexible alternative.

# MATERIALS AND COLORS

## <sup>1</sup> Melamine coated wood-based board:

moll furniture is made of melamine resin-coated wood-based board in accordance with EN 312 and EN 14322. The Formaldehyde class CARB II is complied with, which is based on more stringent limit values than the E1 test method according to EN 120. As per the current state of knowledge, no damage to health or adverse effects will occur.

## <sup>2</sup> Painted MDF wood-based boards:

Sides consist of MDF wood-based boards, with primer foil: surface varnished with UV-curing Acrylic lacquer system. This was produced on a water-base and is therefore particularly environmentally friendly.

## <sup>3</sup> Solid oak or Walnut oiled:

Solid wood as a natural raw material from sustainable forestry (FSC certified). Tested according to EN 13353 and EN 13 017-2.

## Blue Angel

The Blue Angel guarantees that products are produced with low emissions and high environmental, health & usage properties are met.

## Made in Germany

moll products are developed in Germany and manufactured according to high quality and safety standards.

## SC and PEFC certification

Confirms and certifies the responsible handling of the raw material wood. To ensure the preservation of our forests, we source our wood from a certified supply chain. This guarantees ecological and socially acceptable, and sustainable forestry.

## CARB II

moll wood-based materials are CARB II compliant with more stringent limits than E1 E05 according to the current test method. This is not harmful to the health when used, according to current knowledge.

## Desk surfaces

All decorative surfaces are tested for abrasion resistance to stains, scratching and impact stress in accordance with EN 14322. The white of the desk tops prevents glare or reflections when incident light.

## Our responsibility

In our moll production we use primarily environmentally friendly materials. On the one hand, we want to keep the CO2 footprint of our products as small as possible. On the other hand, we wish to use materials that can be recycled and/or reused.

↔ 44 cm | ↕ 45 cm | ⚙ 94 cm | ⚖ 7,5 Kg | 📦 0,22

A gas pressure spring ensures simple, infinitely variable height adjustment. The seat shell is made of durable molded beech wood, lacquered white.

The 3D rocking mechanism supports the natural dynamic movements of the pelvis in all 3 dimensions: forwards, backwards and to the side.

A five-arm foot base made of resilient aluminum makes each Primo tilt-resistant and sturdy.

The double castors are lightly braked for the highest safety requirements and are suitable for both hard and soft floors.

PRIMO S: For a body height of approx. 119 cm up to 159 cm.

PRIMO M: For a body height of approx. 146 cm up to 188 cm.

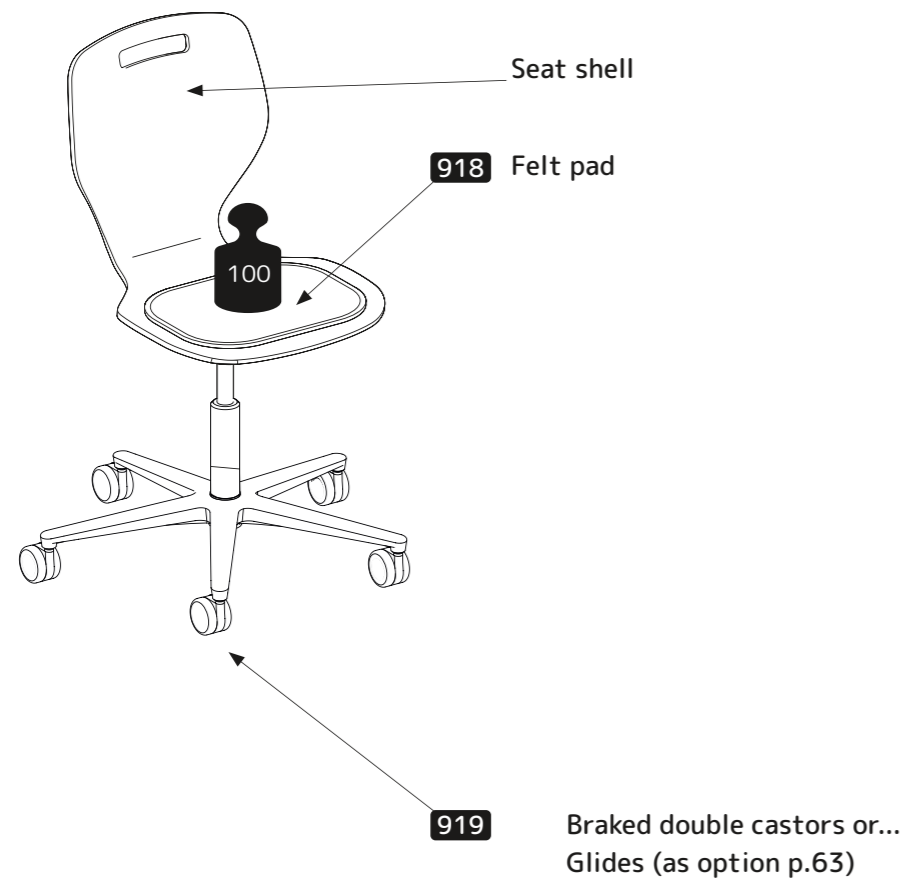

The swivel chair can support a maximum load of 100 kg.

## ADDITIONS

## 918 Felt pad

- ↔ 36,5 cm | ↗ 28 cm | ↕ 3 cm | ⚖ 0,294 Kg | 📦 0,00307 m³ | 🗑 1
- Seat cushion padded 365 x 280 mm
  - Material: woolen felt, 100% wool, 5mm + fleece padding 100% polyester, 20mm
  - Structure: Two layers ( total thickness: 30mm )
  - Two colors: Blue similar to RAL 5002 / Pink similar to RAL 4010
  - Certification: Ökotex Standard 100
  - Anti-slip pad: rubberized fleece

## Care instructions seat cushion

- remove the dust with a lint roller or
- use a vacuum cleaner and a clean soft brush adapter to remove dust
- if felt is dirty, clean with water and mild detergents

## 919 Glides Set 5

- ↔ 4,5 cm | ↕ 3,5 cm | ⚖ 0,295 Kg | 📦 0,003 m³ | 🗑 1
- Fixed Glides as a replacement for castors
  - With the Glides, the chair height is reduced by 3 cm – this makes it possible for smaller children to sit with an ergonomically correct posture
  - Retrofitting is possible

## 325 MAXIMO

↔ 68 cm | ↻ 68 cm | ↕ 82 cm | ⚖ 15,676 Kg | 📦 0,379

The seat depth and height, as well as the backrest, are adjustable independently of each other.

Both the seat and backrest are foam-upholstered and have removable and washable covers.

A shock absorber under the seat and the inherently elastic seat surface offer the essential: „More seat dynamics and comfort!“

The five-armed and extra-wide foot base and an integrated turnstop (lockable pivot bearing) ensure particular stability and safety.

For the highest safety requirements, the double castors are lightly braked and are suitable for both hard and soft floors.

Manual instructions and tools are stored in compartments under the seat that can also be used as „secret compartments“.

Suitable for a body height of approx. 1.10 up to 1.85 m.

Maximum load up to 80 kg.

# STORAGE FURNITURE

## 316 PRO

↔ 43 cm | ↗ 54 cm | ↕ 43 cm | ⚖ 18,927 Kg | 📦 0,128 m³ | 🗑 1

The top of the three self-closing drawers is ideal for writing/art supplies. It's lockable and has a hidden secret compartment! The bottom two drawers in DIN format A3 offer generous storage space.

All corners are rounded and therefore reduce the risk of injury. Three colors available to match the Joker and for all Winner variants (White, Maple-white, Oak).

Four smooth-running double castors (two lockable) make the container mobile.

## 913 PAD

↔ 43 cm | ↗ 54 cm | ↕ 5 cm | ⚖ 2,2 Kg | 📦 0,015 m³ | 🗑 1

Pad for mobile containers Cubic and Pro. Comfortable and high quality 4 cm foam filling.

## 925 REPLACEMENT COVER

↔ 43 cm | ↗ 54 cm | ↕ 5 cm | ⚖ 0,395 Kg | 📦 0,00172 m³ | 🗑 1

The changeable fabric cover is available in many different colors and is easy to clean. A replacement cover can be purchased at any time (P.73/74).

# PRO

## 317 CUBIC

↔ 43 cm | ↕ 54 cm | ↗ 43 cm | ⚖ 21,766 Kg | 📦 0,139 m³ | 🗑 1

The Cubic has three self-closing drawers.

The top drawer is lockable and has a removable secret compartment.

The lower two drawers in DIN A3 format offer generous storage space.

The mobile container with its white decor is identical in design to the Champion.

The handle grip recesses can be changed 8 times by means of a built-in color sheet memory.

Four smooth-running double castors (two lockable) make the container mobile.

# CUBIC

## 318 CUBICMAX

↔ 43 cm | ↕ 54 cm | ⚖ 88 cm | ⚖ 43,048 Kg | 📦 0,271 m<sup>3</sup> | 🗑 1

The Cubicmax offers even more storage space thanks to an additional drawer and a shelf attachment with two shelves variable in height and depth.

The two shelves can be used either as one large shelf or as two smaller ones. This creates three divided compartments in the rear part of the shelf, with more height available in the front area, for folders, for example.

The handle grip recesses can be changed 8 times by means of a built-in color sheet memory.

Four smooth-running double castors (two lockable) make the container mobile.

# CUBICMAX

## 321 TOWER 56

↔ 56 cm | ↻ 56 cm | ↕ 67/125 cm

With an area of just 0.3 sqm, the rotating shelf tower offers countless storage space and shelving options. The individually adjustable compartments leave little to be desired.

The Basic shelf (67 cm) consisting of Rotating Plate + Module 1.  
Basic shelf + Module 2 (125cm).

Accessories such as shelves or the freely stackable Baskets in 2 sizes and 4 colors increase the benefit enormously. Whether books, CD's, toys or other small utensils find their place in Tower 56. And chaos doesn't stand a chance anymore.

The Tower 56 can be rotated around its own axis with its low-noise pivot and thus allows convenient access to every shelf in the rack. Integrated aluminum handles facilitate turning, additionally secure the shelf contents and are an elegant design feature.

Tower 56 has soft pinch protection on the rotating shelf. Adjustable feet allow the rotating shelf to stand securely, even on uneven floors.

## LIGHT

**922 FLEXLIGHT 923 L7**

The Flexlight has two movable goosenecks and a ball-and-socket joint on the clamp base, which allow maximum flexibility in the adjustment of the desk lamp. The clamping base is designed for a panel thickness of 13 to 25 mm.

Lamp head with 40 LEDs of energy efficiency class: G; 85% energy saving compared to a 90 W light bulb; nominal luminous flux 690 lumens; nominal power consumption 10 W; color temperature 3500 K; rated life 25,000 h.

Power-on button with additional night light function that can change color at the touch of a button. If required, this function can also be switched off.

The lighting is flicker-free via a sensor button and can be dimmed continuously from 100% to 5%. 2 years quality guarantee.

## FLEXLIGHT / L7

## 922 FLEXLIGHT

↔ 62 cm | ⤴ 42 cm | ⬆ 1,468 Kg | 📦 0,01 m³ | 🪑 1

The swiveling lamp arm allows an alignment for both right-handed and left-handed users.

The switch has a night light function, which can change color at the touch of a button. It can also be switched off if necessary.

Stepless dimming from 100 % to 5 % without flickering.

Two USB ports serve as charging stations.

## 923 L7

↔ 62 cm | ⤴ 42 cm | ⬆ 3,76 Kg | 📦 0,01 m³ | 🪑 1

L7 is identical in construction to the Flexlight, but has an attractive and solid base, so that the lamp can be placed at any desired location.

Heavy, sturdy base 16.5 x 16.5 cm with pen hollers.

Flexible light arm for a precisely adjustable lighting.

## 921 MOBILIGHT

The plain white Mobilight made of aluminum with grey plastic applications has a rotatable lamp head with an integrated reflector.

The swiveling light arm allows for right-handed and left-handed users.

Energy-saving LED lamps with nominal rated power consumption 6 W; color temperature 3000K (warm white). Nominal service life 30,000 h bulbs. Bright luminous flux 690 lumens. The illuminant is replaceable.

# MOBILIGHT

## 921 MOBILIGHT

↔ 45 cm | ⚙ 41 cm | ⚖ 1,542 Kg | 📦 0,04 m³ | 🪑 1

The swiveling lamp arm allows alignment for right-handed as well as left-handed users.

The mobile clamp base is suitable for a desk top thickness of 13 to 40 mm and is clamped to the desk top.

Holds even when the desk top is at an angle.
