DEBAPOST® Second life

Sustainable mailing bags.

For safe and planet-friendly deliveries.

DEBATIN
SAFE. PERFECT. PACKED.

DEBAPOST® Second life mailing bags are ideal for e-commerce and mail order companies. For example, they can be used reliably for courier deliveries and mail order clothing. Made predominantly (80%) of post-consumer recycled materials, they use resources sparingly and help to close the plastics recycling loop.

with permanent 10mm closure

Or with a 70 mm double closure

www.blauer-engel.de/uz30a

Mailing bags in Blue Angel quality offer the following benefits for e-commerce and online mail order businesses:

- Planet-friendly (supports the recycling loop)
- Considerably lower CO₂ emissions (find out more with our CO₂ calculator: www.debatin.com/co2)
- Single or double closure with a permanent seal (perfect for returns)
- Up to 8-colour flexo half tone printing
