

BOLSAS CASTRESANA, S.L.U.
Manufacturer of plastic films

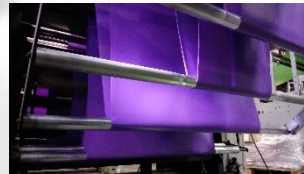

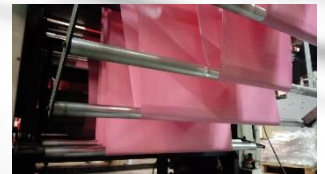

RECYCLED PLASTIC SHEETING

Recycled Material

Our plastic sheets are made of a minimum of 80% post-consumer recycled material from plastic materials that have already been used.

At Castresana Bags we give plastic a second life by recycling containers and packaging, thus reducing the consumption of virgin plastic materials and giving them a new application.

Colours

The wide range of pigmentation that we have available makes it possible to finish the product in the colour that the customer determines and requests.

Finishes

With thicknesses ranging from 15 to 100 microns, we manufacture films suitable for covering goods placed inside boxes or on top of pallets as protection against external agents.

QUALITY - COMMITMENT - FLEXIBILITY - AVANT-GARDE
