Whether printing short bursts or large volumes, its business-class output and fast FPOT (4.7 seconds²), keeps your workflows moving efficiently.

Heat-Free printing saves energy and costs

Save up to 93% on energy while printing with the Epson AM-C10000⁵. Epson's Heat-Free inkjet technology enables the AM-C10000 to use less power than comparable laser printers⁹. With a TEC value of just 0.3kWh, it helps organisations save on energy, time and reducing intervention¹⁰ - without compromising on print speed or quality. No heat also means no warm-up time, when the printer is switched on or woken from sleep - it starts printing immediately.

Reliable finishing for demanding workflows

Designed for high-volume environments such as in-house print rooms, corporate reprographic departments (CRD) and copy shops. Optional A4 and A3 (SRA3) high capacity trays to minimise paper changes, saving time and maintaining performance for critical batch jobs. A versatile A3 colour MFP providing professional document finishing, automated stapling and punching. The AM-C10000 supports a variety of media from tracing paper, envelopes, postcards to SRA3 for light production and workplaces.
