

Rubber is able to express an emotion, transmit a taste for beauty and tell a story of excellence and enthusiasm. We seek practical and high-performance solutions, characterized by an appearance that is able to interpret a contemporary vision of space. Extreme durability, increased comfort, reduced noise and improved safety. You can expect Mondo Contract Rubber flooring to enhance any space you desire.

Mondo rubber floorings have both smooth surface and embossed surface.

Smooth surface products include:

- Linear: Contemporary Linear marbling with smooth surface. Neutral range of colors.
- MASSETTO: Smooth surface with painted concrete look. 6 achromatic shades match with every environment.
- ARIA: Micro granules product with smooth surface. More granules with tone in tone look makes the space more elegant and contemporary.
- ONE: smooth surface in solid color.
- HARMONI & PUNTI : smooth surface with multicolored granule.
- FIBRA: smooth surface with natural fiber.
- Fibra EL and Uni EL : supplied in tiles 610x610mm, available in 16 colours and in a thickness of 5mm. Suitable for loose lay installations with tackifier adhesive.

Embossed surface products include:

- Futura HD: the surface of Futura HD is specially treated to achieve a hammered effect, giving a matt, anti-glare finish. Multicoloured granules of identical composition are impregnated into the monochrome base.
- ROCK: New stone-like product with embossed surface. Virtual glitters and darker speckles for only rubber stone-looking product. Slip resistance up to R10.
