

## THE DATA CENTER SOLUTION

### Our Vision

We are shaping the next generation of data centers for an AI-driven world. With modular design, flexible scalability and sustainable energy concepts, YEXIO enables fast deployment while reducing environmental impact and delivering reliable, efficient and future-ready digital infrastructure.

### About us

HOCHTIEF Data Center Partner develops innovative and sustainable data center solutions for the digital infrastructure of tomorrow. With YEXIO, we combine modular construction, scalability and energy efficiency in a turnkey data center solution.

### Why choose YEXIO?

YEXIO combines modular construction, energy efficiency and sustainable operation in a future-ready data center solution. It enables fast deployment, flexible scalability and reliable performance for growing digital and AI demands.

- ✓ **Faster deployment**  
Off-site construction and a compact design accelerate project delivery.
- ✓ **Future-ready performance**  
Designed for AI-driven computing and growing capacity needs.
- ✓ **Flexible scalability**  
Modular design enables flexible expansion as demand grows.
