FLOORS FOR A BETTER TOMORROW

ABOUT

CLASSEN is a pioneer in innovative flooring that give rooms a tailor-made face. Since 1949, people all over the world have been fascinated by our high-quality designs and unique technologies, because our floors are up to all challenges of life and make it easier, worry-free and more beautiful.

At the same time, we are aware of our responsibility for the future of our planet. Every day we evolve to make our production even more efficient and sustainable, and to create floors that inspire now and do not burden future generations.

ABOUT

CERAMIN®

THE FUTURE OF FLOORING

With its CERAMIN material, CLASSEN redefines polymer flooring. The purchase of a polymer floor becomes a conscious decision that you will not regret. No matter what demands are made on a carefree life now and on an unencumbered future for present and future generations.

CERAMIN is made in Germany. The formulation and production has been patented by the CLASSEN Group. The recipe was developed in-house, which gives 100 % control over all ingredients. Guaranteed safety for our health, for the future of our children.

ABOUT

100 % POLLUTANT FREE

Without chlorine, stabilisers, phthalates or other harmful plasticisers.

100 % WITHOUT PVC

60 % natural mineral filler, 39 % polypropylene, 1 % environmentally and health-friendly additives.

FUTURE. NOW.

ABOUT

100 % RECYCLABLE

Designed for complete recyclability, produced with a high recycled content.

100 % DIMENSIONALLY STABLE

Dimensionally stable, UV-resistant, waterproof, easy to process and clean.

PACKAGING

100 % WITHOUT PVC

The independent plastics recycling network of *plastship GmbH* has tested CERAMIN for recyclability and certifies it as highly recyclable.

CERAMIN is also recyclable after its life cycle. In addition to recycling in a new flooring product, this also means that the raw material can be reused outside the flooring industry.

**CERAMIN IS HEALTHY LIVING
AND USABLE WITHOUT ANY WORRIES**

- No PVC is used, but polypropylene (PP).
- It contains no chlorine, no phthalates or other plasticisers and no stabilizers.
- It is free of harmful substances, i.e. no harmful additives are emitted.

ABOUT

PRIME TIME FOR CONSCIOUS LIVING

The diverse synthetic floor coverings of the CERAMIN PRIME series from CLASSEN are healthy to live with, sustainable and durable. Whether ultra-thin or mega-large, with impact sound or without - the matt tile surface with the particularly high-quality gloss level is convincing in every design. And the easyloc quick installation system creates the secure connection for the resilient companion in everyday living.
