CERTIFICATE

Sto SE & Co. KGaA 79780 Stühlingen, Germany

is granted the right, on the basis of the contract on the use of the environmental label no. 39163 based on DE-UZ 140 Edition 2019, for the product

StoTherm Classic® L & MW

to use the Blue Angel Ecolabel shown below as a sign of special environmental friendliness.

Bonn, 15 December 2022

R. Wollmann

Managing Director RAL gGmbH

Annex 2 to the contract according to DE-UZ 140

Ecolabel for "thermal insulation systems"

Information on the representation of the ETIC systems on the website of the Blue Angel and the manufacturer

Presentation of the individual ETIC systems

The award-winning ETIC systems are published on the Blue Angel websites under the company names of the distributors in alphabetical order.

The system components of the thermal insulation composite system are listed in the appendix to the contract. This appendix is also published (as a PDF file) on the Blue Angel pages and can be downloaded.

The distributor also publishes this PDF on its website in connection with the Blue Angel logo.

Content of the annex to the contract (PDF document)

The following table shows the system components of the thermal insulation system that has been awarded the Blue Angel. All components provided for by the building authorities as well as all permissible additional components (coatings) as a system must meet the criteria of the Blue Angel. The top coats that can be combined with the system and recommended by the manufacturer, the approval, ETA and / or type approval numbers and further information on the products and their application must also be given here.
