Accis^{Pro}

Designer	ITO Design
Description	AccisPro is a chair for people who want to remain in a healthy position when seated. It refers to the current trend of the so-called "active sitting." Both the seat and backrest adjust to the movements of the user's body, so as not to overload the spine. Comfort is enhanced by adjustable seat depth, backrest tilt angle and forward tilt function.
USP	<ul style="list-style-type: none">• Modern design• Light form• Attributes needed in bigger tenders: forward tilt 5° (standard Profim is 3,5°), seat slide range (70 mm, standard Profim is app. 50 mm)• Innovative solution – the chair adapts to the natural user-body-motions, independently, both backrest and seat follows the users motions• Multiplicity of color configurations
Product versions	Swivel version with mesh backrest, Synchro mechanism with seat slide-function and seat forward tilt-function.
Base	5-star base: <ul style="list-style-type: none">• Polyamide black or light-grey• Aluminium – polished aluminium, white (powder coated aluminium), graphite (powder coated aluminium) Castors/Glides: <ul style="list-style-type: none">• Standard – hard castors• Option – soft castors, teflon glides• Glides – always black. <ul style="list-style-type: none">• Base: black, chrome, graphite – plastic elements and castors always black• Base: white, light grey – plastic elements and castors always in light grey colour
Mechanisms/ Ergonomics	<ul style="list-style-type: none">• Synchro SFL – SL mechanism with function of seat and backrest forward tilt, number of locking positions – 5, backrest tilt - +28° (a lot!), seat tilt -5° (a lot!), seat slide function (range 70 mm), tension adjustment range 45-110 kg• Gas lift with cushion improving the seating comfort
Seat	<ul style="list-style-type: none">• Plastic seat cover (polypropylene) in black or light grey colour;• Moulded foam, foam density app. 80 kg/m³• Seat with function of side movement, independent from the mechanism, 6° per one side, that enables following the user during making involuntarily moves. This function can be blocked.
Backrest	<ul style="list-style-type: none">• Plastic frame (polyamide with glass fiber) coated with distance-fabric Rhythm or Runner, in black or light grey colour (RAL 7047).• Option – lumbar support height- and depth adjustable• The backrest innovation is that it is equipped in sphere-joint, which enables the backrest follow the user in every direction (backrest flexibility) in range 12°. It is non-blocking function.
Armrests	<ul style="list-style-type: none">• P63PU – 4D armrest, polyurethane (TPU) pad with rotation-function• Armrest in black or light grey colour
