

# Courier & mailing bag manufacture

At Euro Malaysia, we're currently investing in brand new machine technology to enhance our capabilities in the supply of courier and mailing bags.

Based upon the evolving demands of retailer requirements, we are committed to be able to deliver product choice across a variety of styles and specifications which include:

- Resealable strip for return
- Perforated 'easy open' tear strip
- Integrated carry handle

In addition, our Design team are focused on delivering further value in this category.

## Delivering value through...

**Enhanced functionality**  
For both packer and end user

**Reuse opportunities**  
Beyond reseal and return

**Operational efficiencies**  
Effective bag choice, selection & dispensing

**Material innovation**  
Enhanced sustainability and disposal

1. Resealable strip for return
2. Perforated tear open strip
3. Integrated carry handle
4. Document enclosed pocket
