Design flooring

Tecara

Design flooring Tecara: Comfort meets design

Tecara is design flooring with an extra dose of comfort. There is a cork layer under each high quality *Puretec*[®] surface, as well as on the underside. The cork provides cushioning that is easy on the joints and minimises noise development – for the best possible sense of well-being. And it looks quite impressive on the outside, as well. The wood structures embossed in the surface lend the decors in this collection a completely authentic look.

Naturally, we also created this design flooring to be completely PVC- and phthalate-free. Because we believe that all components of flooring should be ecological and completely non-harmful to health.

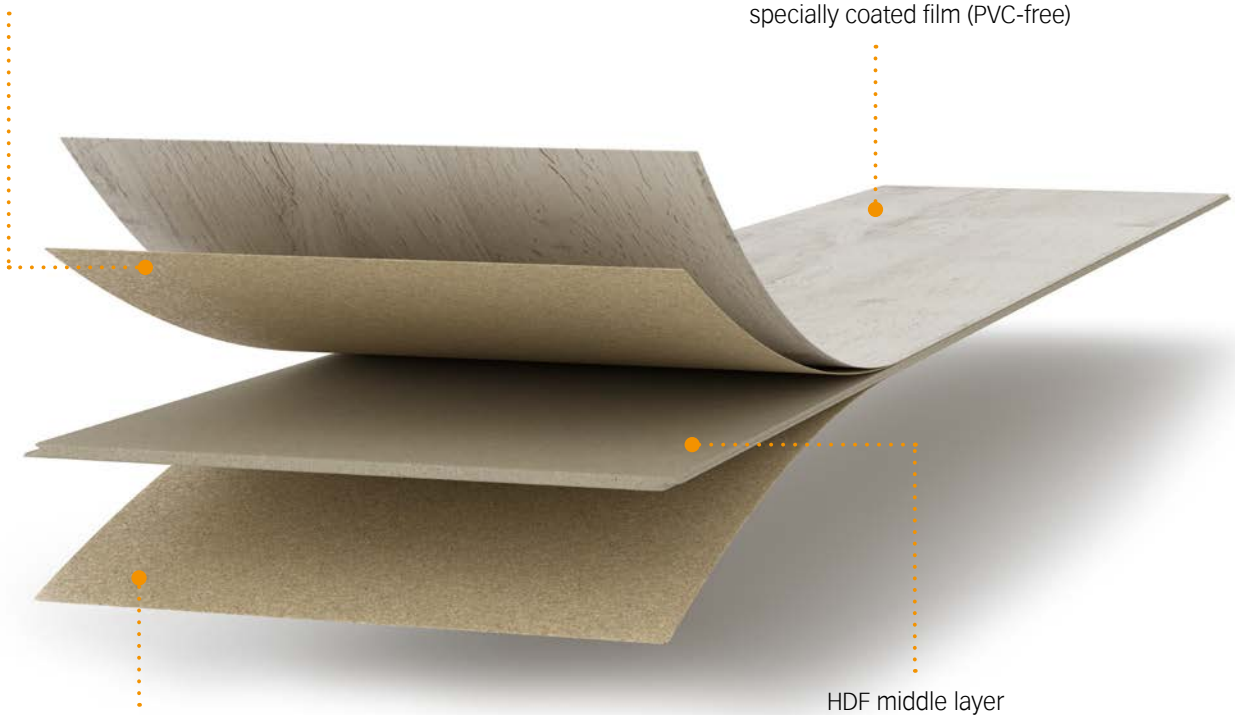

Design flooring Tecara DD 350 S | Old wood oak 6972 | Wood effect

Healthy living can be this beautiful.

Design flooring Tecara features an intelligent multilayer construction with a sturdy HDF middle layer. The cork comfort layer provides cushioning that is easy on the joints and minimises noise development – for the best possible sense of well-being. The high-quality *Puretec*® surface makes the flooring durable and easy to maintain. The additional antistatic finish reduces the development of static electricity on people.

The floor makes the room.

If you have an eye for details, you'll find this inspiring. The design flooring Tecara is the culmination of our expertise – from the safe and healthy components to the natural cork cushioning layer.

100% PVC-free

We do not use PVC or harmful plasticisers in the manufacturing of our design flooring.

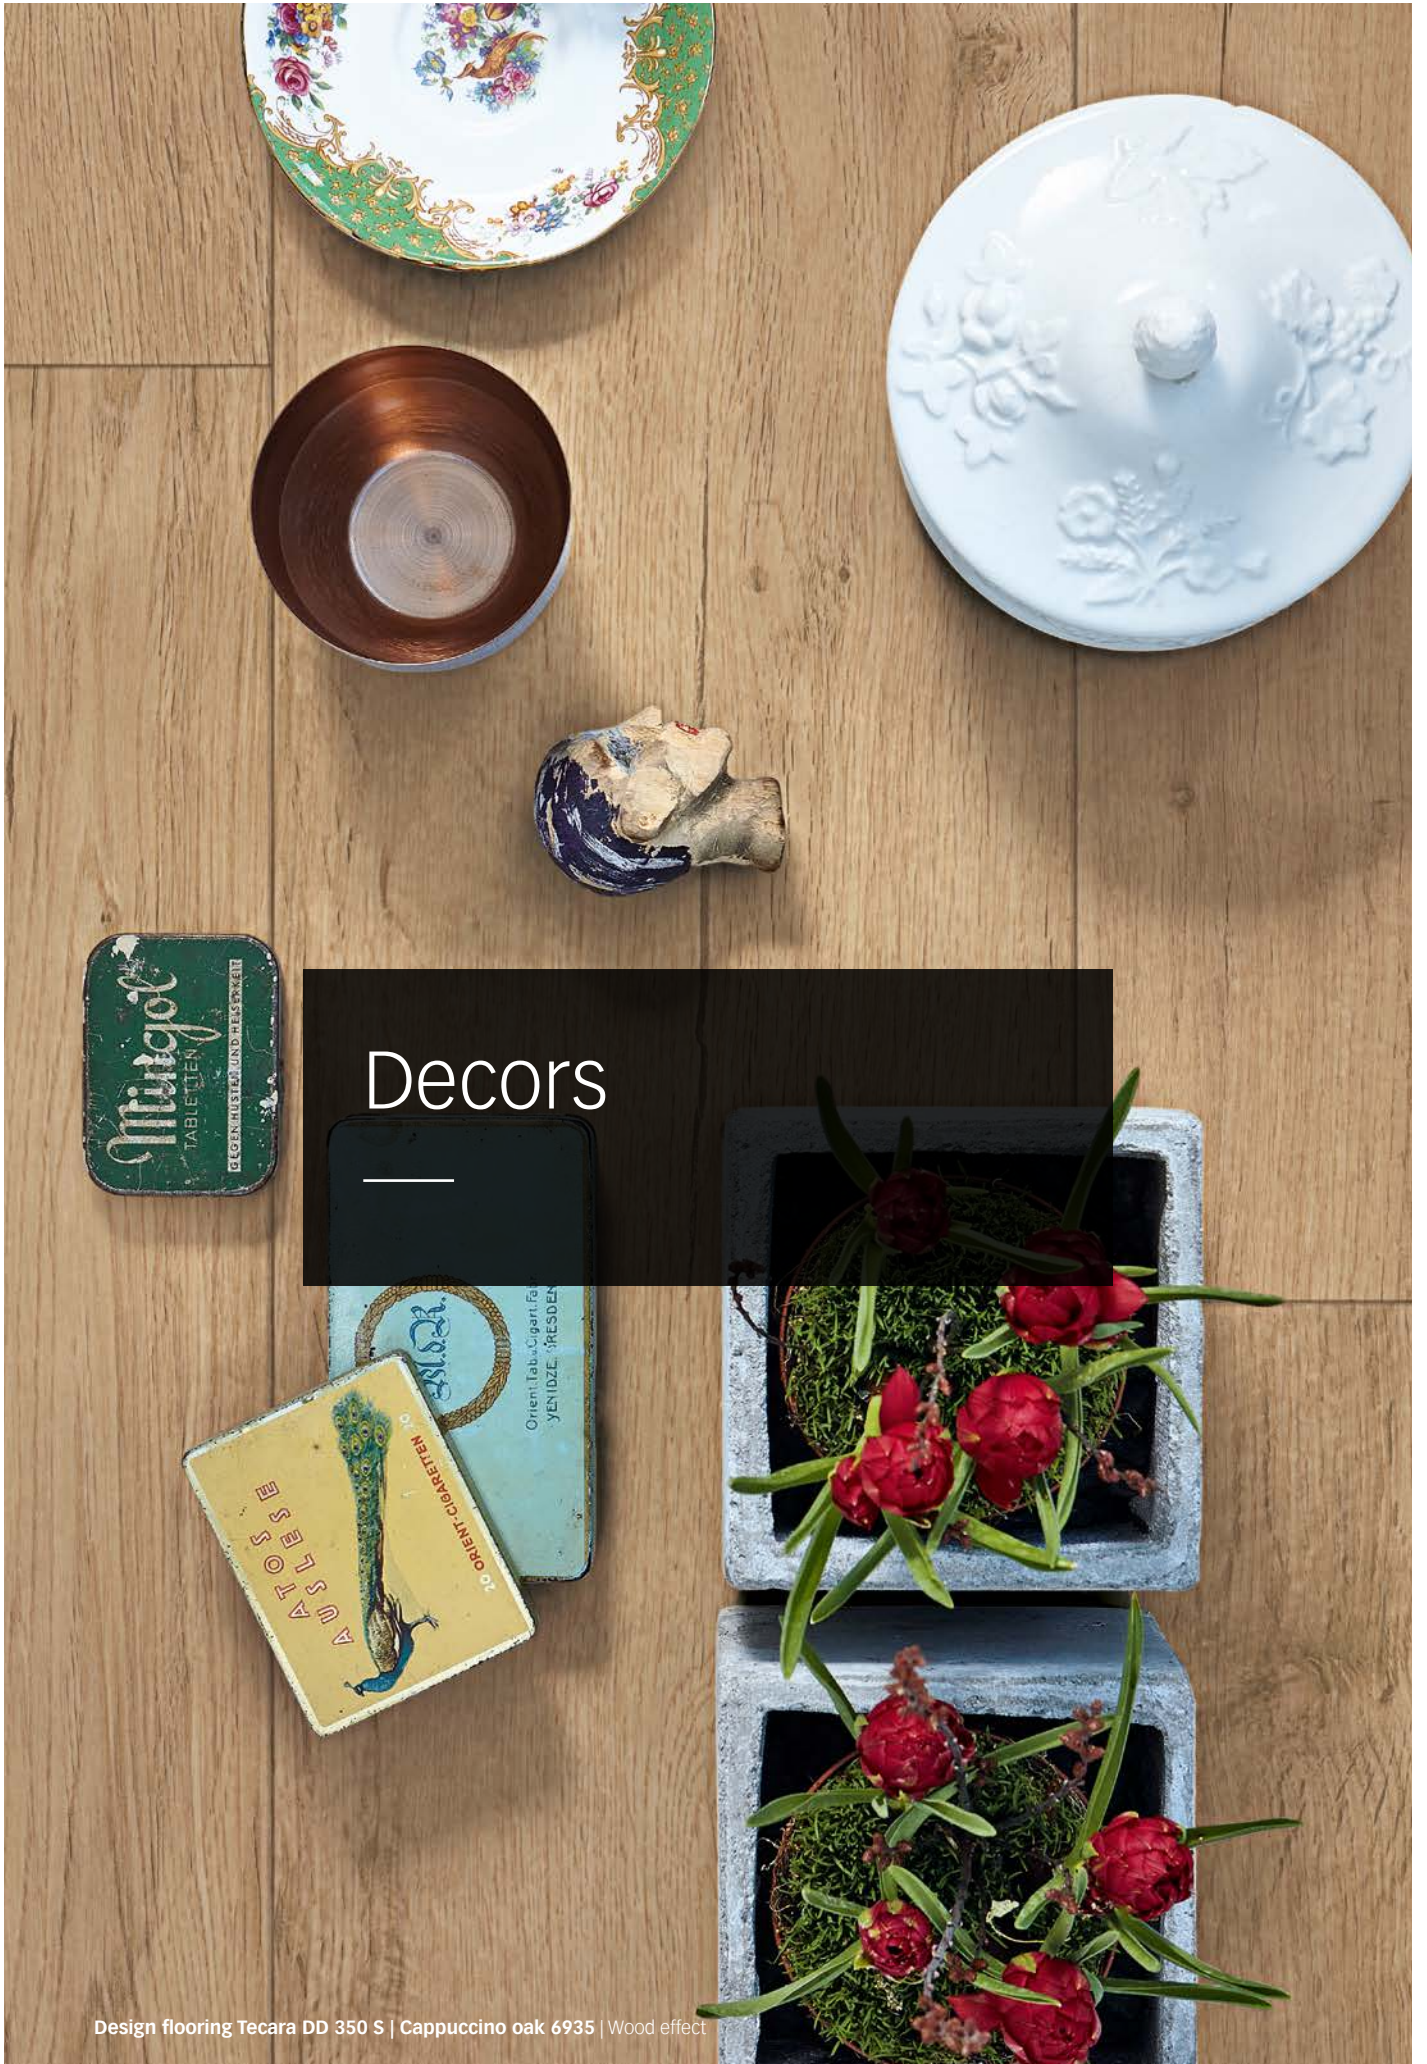

Barefoot-friendly

Warmth and cushioning make the design flooring Tecara a cosy companion for your home – one that's friendly on your feet!

Odourless

Unlike many types of vinyl flooring, our design floors only include materials that belong in your home. That's why you won't notice any unpleasant (or even potentially harmful) odours. Our floors leave you free to simply enjoy your home.

Decors

Design flooring Tecara DD 350 S

For the perfect finish

With MEISTER you are sure that everything goes together!
Underlay materials, skirting boards, profiles and ends – you get everything
from one source, making your flooring into a long-lasting integrated
furnishing solution that suits you perfectly.

Open to all styles – white skirting boards.

What does white have that other colours don't have? Openness that adapts to any style and the ability to effortlessly complement all other colours. That is why our skirting boards with white decorative film enrich any living style and can be superbly combined with all floors. The large selection of different profile shapes enables you to also create classical and modern touches totally to your taste.

Skirting board 19 PK profile | Plain white gloss 324 (decorative film)

Colourful and full of character skirting boards you can paint yourself.

In the colour of your wall? To match your furniture? Or completely different? It's up to you: design your skirting boards totally according to your own ideas! Covered in a film that can be painted, these mouldings are prepared perfectly for you to realise your personal ideas. Let your creativity run wild!

A harmonious look – with floor-matched skirting boards.

You quite rightly would like pure harmony within your own four walls, and that's from the ground up. You can achieve this effortlessly with skirting boards coordinated to the colour or decor of your floor. The balanced interplay between the floor and moulding is rounded off by the impressively consistent decor from moulding to moulding. This is how good perfect harmony looks.
