RECOMMENDATIONS FOR STORAGE AND USE:

Store in a cool, dry place, away from sunlight, and for a limited time, according to the formulation. The ideal storage temperature should not exceed 35°C. The inadequate storage of any type of polyethylenes, because they are photodegradable products, if they are exposed to the action of UV rays, can precipitate their degradation, giving off odors, change of coloration, loss of mechanical properties, etc. Once the degradation process has begun, Placasa cannot guarantee that the product is suitable for the use for which it was manufactured. Printed surfaces should never come in contact with food.

Observations:

The materials used for the manufacture and / or handling of this product, comply with all the requirements related to the Blue Angel certificate.

In manufacturing and / or handling we comply with the aspects of good practices and quality assurance according to Regulation (EC) n° 2023/2006, RGSA N° 39.01889 C.
