DEBATIN

► **DEBAPOST**® premium quality mailing bags are made of tear-proof PE film which can be transparent or opaque, depending on your requirements. Suitable for e-commerce businesses, they can be used to send clothing, magazines, brochures and catalogues safely and individually. Equally, they are ideal for returns.

DEBAPOST® mailing bags ensure your magazines, brochures, catalogues and marketing materials reach their destination safely and in style. Made of transparent, tear-proof polythene, these mailing bags can also be printed to order - making them an ideal form of advertising in their own right, even when in transit.

Our standard range

with reversible 10 mm closure

Item no.	colour	material	size	film thickness	dimensions (ext.) in approx. mm	printed note	units

Standard range always in stock!

DEBAPOST® mailing bags and/or bags for returns are particularly suitable for sending textiles or returning goods. Made of transparent, tear-proof polythene film and securely closed via a 10mm fixed closure, goods are offered optimum protection in transit. These mailing bags can be printed to order, or supplied with standard warnings in various languages.

DEBAPOST® mailing bags are made of tear-proof, opaque PE film, and can be printed to order for clothing and courier deliveries. Thanks to the permanent seal on the single or double closures, they are also suitable for returning goods. Messenger-style bags are also available on request. These mailing bags have a friction slip value of between 0.15 and a maximum of 0.20 in accordance with the ISO 8295 test procedure prescribed by DHL.

bottom gusset

closure
