

## DUNES®

DUNES® is an exclusive Aniline leather with a natural, rustic look and a sublime, almost velvety tactile feel. Achieved via a process of sanding and applying a special type of leather oil to the surface. At the same time, DUNES® boasts a matt look that's raw with a touch of understated elegance.

Part of DUNES®' extra appeal are the natural markings which bring a unique personality to each hide. Colour tones will also vary from hide to hide and within each individual hide. Watch for a beautiful patina that will appear over time as a result of the leather's usage, exposure to daylight and interior lighting. With use, the leather will become shinier and smoother over time.

Our DUNES® collection has received the Nordic Swan Ecolabel. A highly-respected certification verifying that it meets their rigorous requirements regarding the environment, use of energy and resources. Additionally, as a result of meeting a separate set of criteria, DUNES® can be specified as one of the components as part of the certification process for a design to be awarded the EU Ecolabel (EU Blomst in Danish).

**Minimum order** 1 hide

**Dispatch** Within 24 hours

**Type** Aniline leather

**Thickness** 1.1–1.3 mm

**Size** 4.5–5.5 m<sup>2</sup>

**Origin** European rawhide, typically from Italy, Germany, Austria, Switzerland and Scandinavia

**Surface** An elegant, matt surface with a somewhat velvety look and feel

**Finish** Special leather oil to enhance the body

**Tannage** Chrome-free

**Dye** Water-based aniline dye

**Particular attributes** A soft leather with velvet-like touch. A slightly raw, rustic look with natural markings. A lovely natural patina will appear over time, depending on exposure to light and conditions of use.

### Care & cleaning

As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. Here are a few tips:

Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid any chemical products, such as saddle soap, other leather cleaners or household products. Protect from direct sunlight, excessive heat and sharp objects.

The care and maintenance of leather will always depend on the specific way in which it is used, the conditions of use and how often it is used.

**Custom** Special colours available with a minimum order. Just ask us.
