

# Flexi-loop Handle Carrier Bag

Loop handle bags are primarily intended for the needs of specific retailing, particularly retail fashion shops and boutiques. Our bags offer large, uninterrupted surface for high impact printing.

Euro SME is capable of supplying loop handle carriers in a wide selection of sizes, with or without bottom gusset, along with different sizes and colors of handles.

The Bags can be printed with up to 6 colors on both sides of bag and manufactured with recycled material using certified Post Consumer Waste (Blue Angel) or Ocean Waste Material (OWM).

HELPING TO PRESERVE OUR SEAS AND OCEANS

80% PCW with Blue Angel declaration
-  Maximum 6 colour on 2 side printing capability  
(100% ink coverage)

## Ocean Waste Flexi-loop Handle Carrier

Ocean waste Loop Handle Carrier is produced using Ocean Waste Material (OWM) - abandoned plastic waste on its way to our ocean.

OWM is a critical element in the fight against oceanic plastic pollution. Focusing on capturing OWM before it becomes ocean plastics is therefore a direct and very effective way to limit the damage our oceans are suffering.
