

Häfele Startec Frame Fix Door frame clamp fixing set

For wooden interior door frames

- > Mechanical clamp set for easy fixing of wooden interior door frames, the door can be used immediately after installation
- > Assembly foam is not required, hence less impact on the environment and your health
- > Installation is independent from temperature and humidity
- > Can be adjusted after installation, can be easily removed
- > Free from hazardous pollutants (assembly foam, contaminated wooden parts, etc.), difficult special waste disposal is not required

Installation

- ① Screw base plate to door frame
- ② Slide stop brackets onto base plates (allow stop brackets to engage)
- ③ Insert door frame into wall opening (note distance to floor covering)
- ④ Slide on mounting brackets and fix with screws, align door frame on hinge side, tighten door frame
- ⑤ Mount blind frame

More detailed information on installation can be found in the installation instructions.
