

NOIR

Almost like the midnight sky, NOIR is a brilliant black leather that exudes mystery and emotion. While the colour is a dark shade of black – it is rich and full of depth and dimension. Have a look up close and you can see the lovely, natural irregular marking from the rawhide. Run your fingers across the surface and feel the surprisingly smooth texture of the natural grain.

To keep NOIR looking as dark and delicious as possible, as a semi-aniline leather it has a special light finish that protects it from dirt, the effects of light or the harmful rays of the sun.

Enjoy designing with this incredibly versatile leather that's equally as comfortable. Whether you're designing for a chic interior, elegant furniture, decorative elements or accessories, NOIR is a pleasure to work with. And in black, you have a colour that will add eternal elegance to any project you can envision.

Our NOIR collection has received the LEATHER STANDARD by OEKO-TEX® certification.

Minimum order 1 hide

Dispatch Within 24 hours

Type Semi-aniline leather

Thickness 1.0–1.2 mm

Size 5.0 - 6.0 m²

Tannage Chrome

Dye Water-based aniline dye

Particular attributes The preferred choice of design masters. A forever classic that's perfect for any contemporary setting, enjoy the soft, matt surface with natural markings in this multipurpose leather boasting a light finish to protect it from stains and the effects of light

Care & cleaning

As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. Here are a few tips:

Our leather is ready for you to use as soon as it arrives, so there is no initial need to treat it or clean it. Over time if you see the need for cleaning, use a vacuum cleaner once or twice a month with a soft brush to remove any dust. Once or twice a year for thorough cleaning, use the foam from soap flakes stirred in warm water. Apply the foam with a dry soft cloth, minimising any contact with water. Avoid bar soap, saddle soap, leather cleaners, household detergents or chemical products. Protect from direct sunlight, excessive heat and sharp objects.

The care and maintenance of leather will always depend on the specific way in which it is used, the conditions of use and how often it is used.

Custom Special colours available with a minimum order. Just ask us.

NOIR+

NOIR+ is a versatile leather boasting a smooth surface texture and a matt look with a subtle shine. As a Semi-aniline, full-grain leather, the natural markings are visible, adding authenticity and originality.

A special light finish helps protect NOIR+ from dirt, the effects of light and the harmful rays of the sun, which makes it even easier to work with on a wide range of projects.

Because it's soft, flexible and comfortable, NOIR+ is a natural choice for virtually any project. A versatile leather people count on to always look good.

Our NOIR+ collection has received the LEATHER STANDARD by OEKO-TEX® certification.

PASSION

Passion is a semi-aniline with a soft, silky surface that looks rich and full. The natural grain structure makes the leather breathable and adds an extra dimension when it comes to comfort. What's more, a light, invisible protective finish helps prevent stains and the effects of excessive exposure to light.

The colour palette is rather extensive. Encompassing various autumnal tones, starting with warm yet cool neutrals extending to darker shades.

Enticing to touch with a subtle texture, PASSION is a hidden gem with a classy look.

Minimum order 1 hide

Dispatch Within 10-14 days

Type Semi-aniline leather

Thickness 1.4–1.6 mm

Size 5.0 - 6.0 m²

Origin European rawhide, typically from Italy, Germany, Austria, Switzerland and Scandinavia

Surface Soft matte with a slight shine on the "pebbles", giving the leather an amazing depth

Finish Light surface protection

Tannage Chrome

Dye Water-based aniline dye

Particular attributes A luxurious leather. Soft, silky surface with depth. Natural full-grain structure adds comfort

SAVANNE®

SAVANNE® is the icon of Semi-anilines and the preferred choice of Danish design classics. Part of what makes iconic designs so iconic is their eternal appeal, using a leather that can withstand the test of time. It's just one reason why SAVANNE® is a forever favourite and why we call it "an all-time Sørensen classic".

Matt with a subtle shine, SAVANNE® is a natural full grain leather with visible pores on the smooth surface, adding character and authenticity to any project imaginable. It also has a soft touch and feel that makes it extremely comfortable. As a semi-aniline, the surface has a special finish that helps protect it from stains and exposure to light.

Our SAVANNE® collection has received the LEATHER STANDARD by OEKO-TEX® certification.

SPECTRUM

SPECTRUM is a soft Semi-aniline leather with a subtle texture that looks uniform, thanks to a light surface finish that helps protect the leather from dirt, stains and fading resulting from exposure to light.

As a natural, full-grain leather, the visible pores on the smooth surface add a unique, authentic character to a matt leather with a subtle shine.

With over 85 colour variations curated by Stockholm-based Note Design Studio, it's rare to find a leather with as many subtle tonalities as SPECTRUM. Including more tones and variations that allow for easy pairing with stronger, more vibrant colours. Given so many colours to choose from, there's no reason to compromise on creativity.

For SPECTRUM, we turned to Note Design Studio to develop a new expression of natural colours. Drawing on their insights into colour, they grouped tonalities together according to warm and cold hues, adding subtle gradations of shades in between that can easily partner with more vivid hues. Resulting in a nuanced, harmonious palette that spans the entire colour spectrum.

Our SPECTRUM collection has received the LEATHER STANDARD by OEKO-TEX® certification.
