- lärmarm
- hohe Akkuqualität
- schadstoffarm

Overload protection to protect the gearbox unit

Integrated, large collecting basket for effortless collection of shredded materials

Easy operating, high cutting performance and even feeding of branches

The ideal silent shredder for your garden. The durable cutting roller gives a powerful and low-noise shredding of woody garden materials, branches and bushes up to a diameter of 45 mm.

Equipment:

- The integrated, large collecting basket with locking lever and safety cut-out device. The motor only starts if the collecting basket is locked.
- The automatic drawing-in of branches for relaxed working. The on- / off switch with reverse function for easy removal of jammed material to be shredded without hopper removal.
- The restart protection, the motor protection switch, the LED operating display and the push stick are also included in the large equipment of the silent shredder.
- The counter plate can be adjusted directly on the body of the silent shredder.

Silent shredder	ALF 2800
Order number	300627
AC-motor	230 V ~ 50 Hz
Input power P_1 (S6 - 40%)	2800 W
Revolution of cutting roller n	40 min ⁻¹
Diameter of branches max.	45 mm
Volume of collecting basket approx.	62 L
Guaranteed sound power level L_{WA}	92 dB (A)
Sound pressure level L_{PA}	72 dB (A)
Measurement uncertainty K	0.34 dB (A)
Protection class	IP X4
Safety feeding funnel	✓
On- / off switch with reverse function and restart protection	✓
Stable chassis	✓
Integrated collecting basket with locking lever and safety cut-out device	✓
Weight approx.	27.5 kg
