- lärmarm
- hohe Akkuqualität
- schadstoffarm

sturdy construction

high safety standard through
re-start protection

easy operation and automatic
drawing-in of branches

A powerful silent shredder for relaxed and quiet shredding of branches and shrubs up to a diameter of 45 mm.

Equipment:

- The integrated collecting basket with locking lever and safety cut-out device. If the collecting basket will pulled out, the motor will switched-off.
- The automatic drawing-in of the branches for relaxed working. The safety designed feeding funnel guaranteed an unintentional access into the cutting roller.
- The on- / off switch with reverse function for easy removal of jammed material to be shredded without hopper removal. The restart protection and the motor protection switch are also included in the large equipment of the silent shredder.
- The counter plate can be adjusted directly on the body of the silent shredder.

Silent shredder

LHF 2800

Order number	300610
AC-motor	230 V ~ 50 Hz
Input power P ₁ (S6 - 40%)	2800 W
Revolution of cutting roller	40 rpm
Diameter of branches max.	45 mm
Volume of collecting basket	62 L
Guaranteed sound power level L _{WA}	92 dB (A)
Sound pressure level L _{PA}	69.1 dB (A)
Measurement uncertainty K	3 dB (A)
Protection class	IP 24
Safety designed feeding funnel	✓
On- / off switch with reverse function and restart protection	✓
Sturdy chassis	✓
Motor protection switch	✓
Integrated collecting basket with locking lever and safety cut-out device	✓
Weight approx.	31 kg
