Product guide

# moll prime

Mobilight plus, Lucky, Bandit and Sprinter: One desk light, one swivel chair, two desks and many more easy desk additions for children and young people.

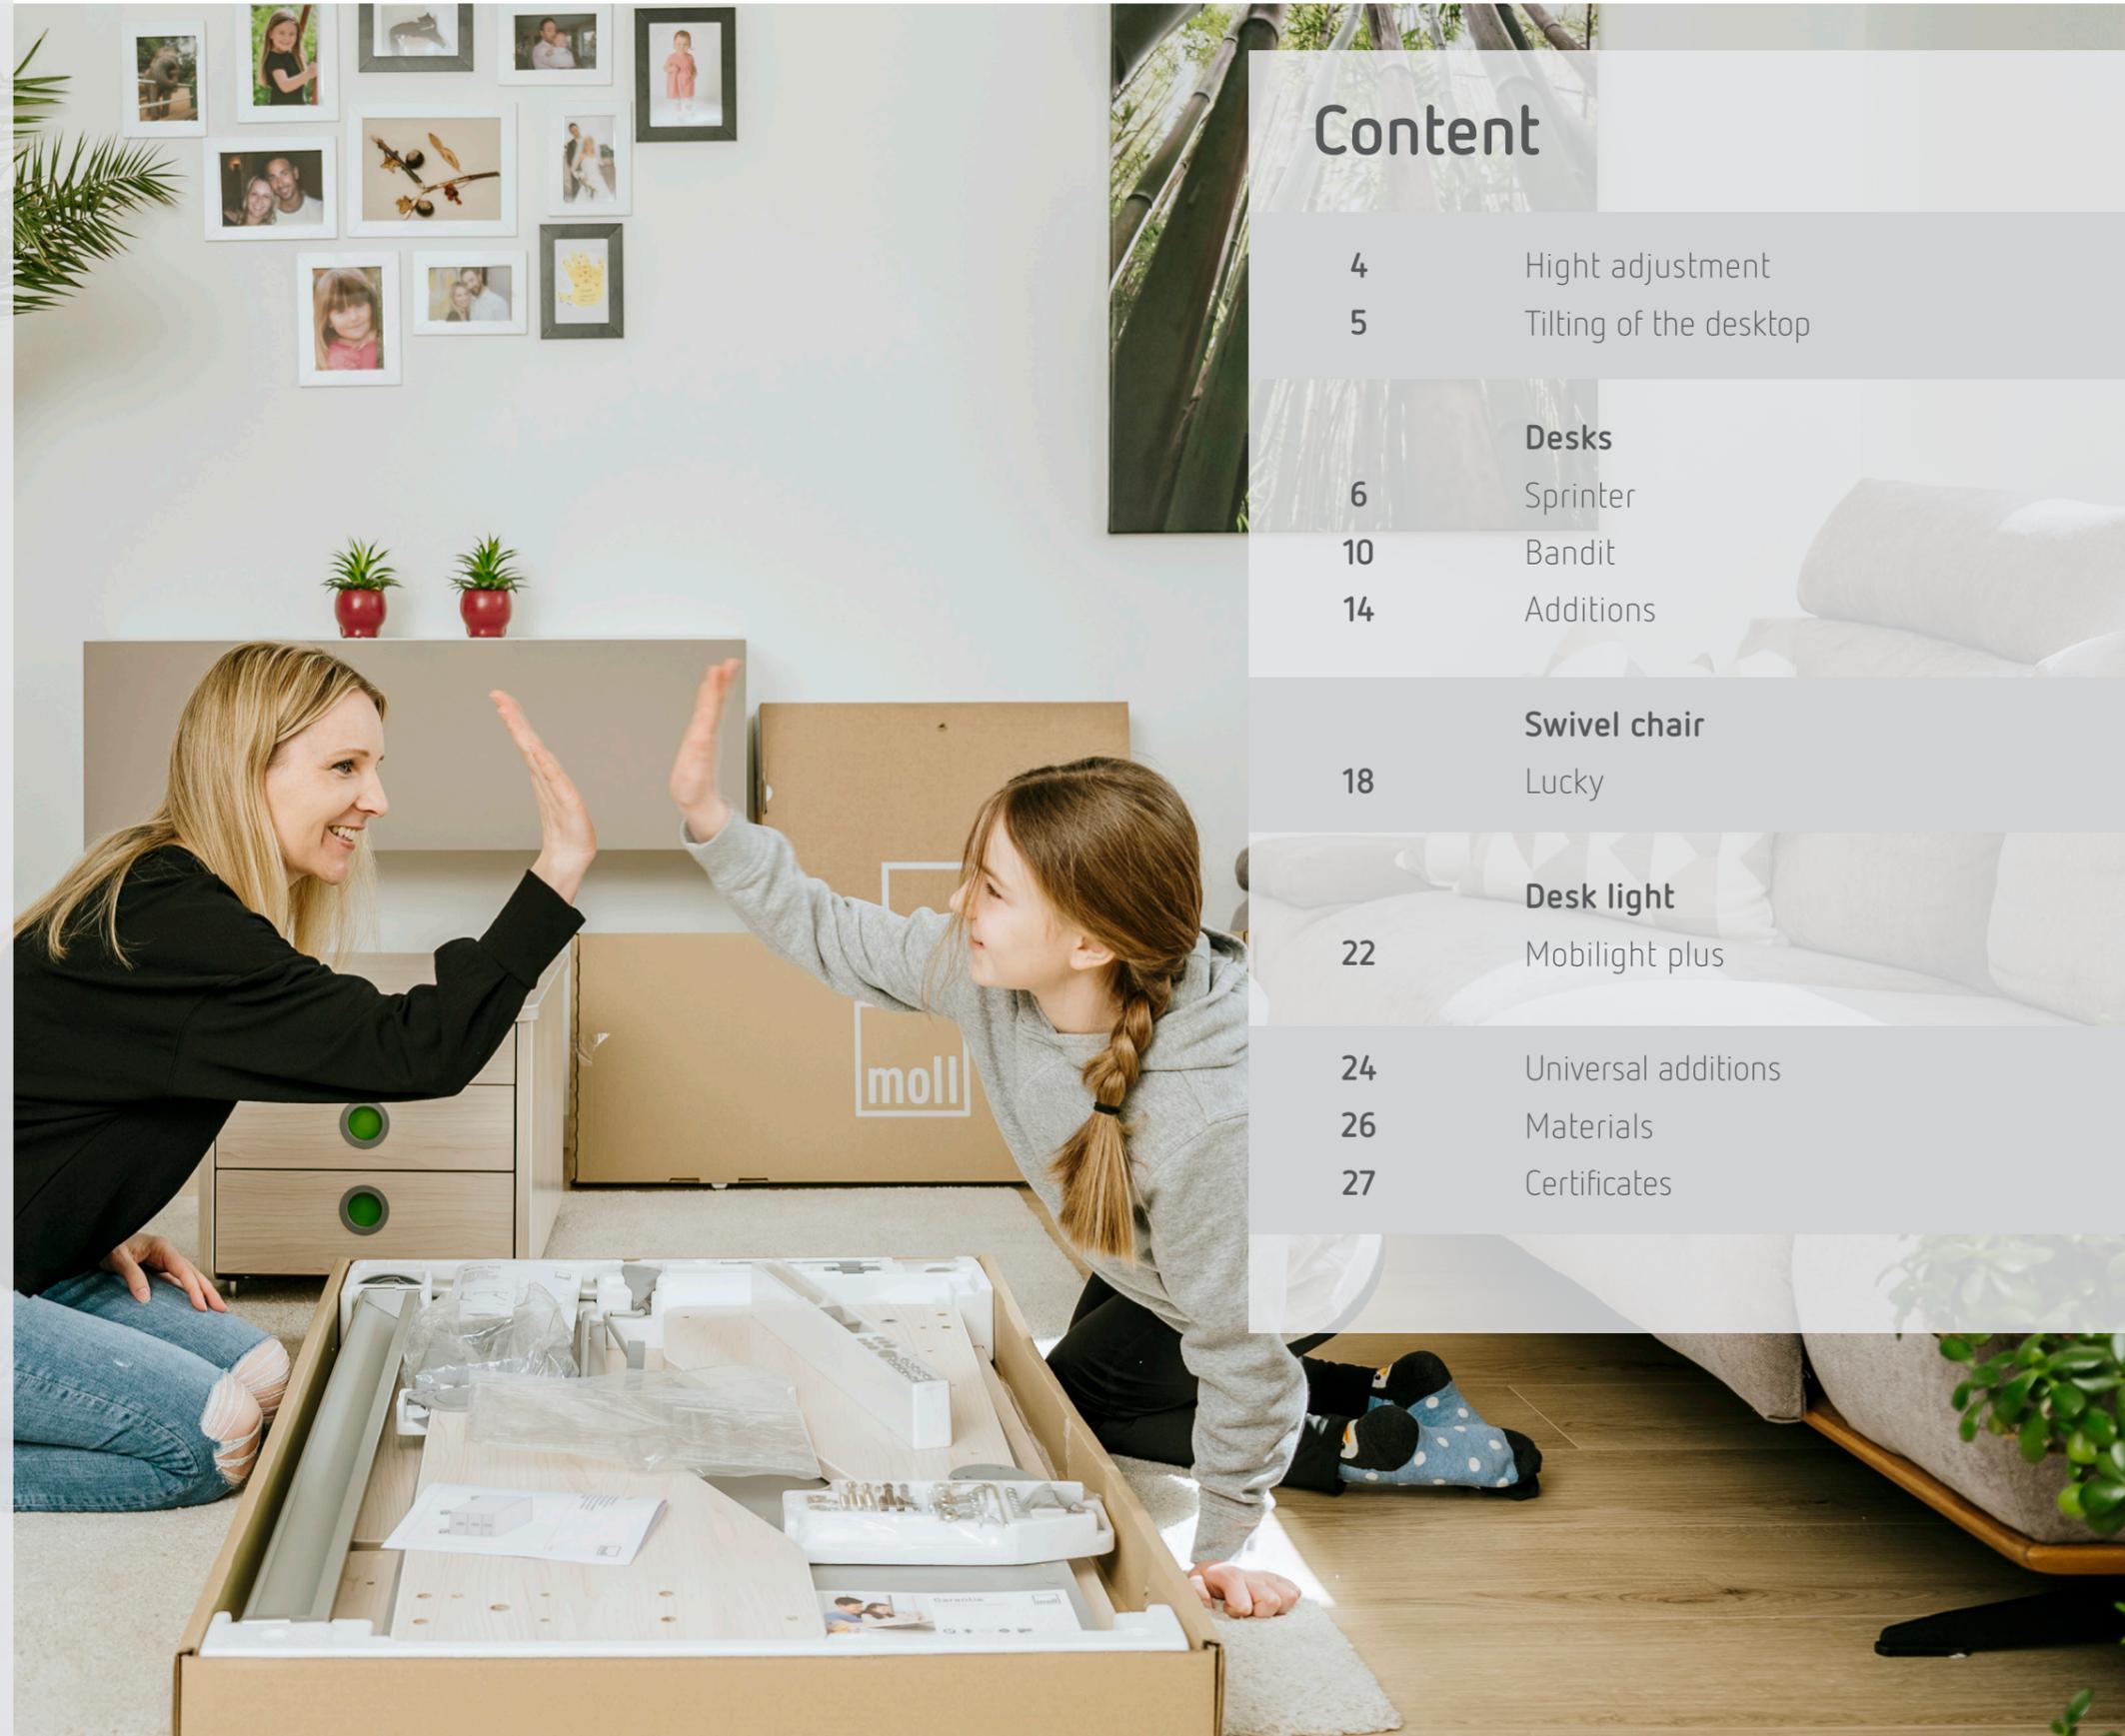

## A journey, through the infinite world of fantasy

Those who are travelling through the world of fantasy are on the move for a long time. A backache during that journey would simply be disturbing. Children's furniture that doesn't fit is only limiting the possibilities. It has to be adjustable and flexible. The moll easy range offers sufficient space for movement and variability of adjustment while traveling or learning. It is an ensemble of desk and chair on which adventurers, princesses or dreamers can rely. Manufactured in carpenter quality by the exclusive Swabian furniture manufacturer moll.

### **easy: Learning at your desk can be so simple and sophisticated.**

The new collection combines moll functions and moll quality. easy is as simple as it reads. No bells and whistles. Only relevant functions for concentrated learning and working. The collection includes the height-adjustable children's desks 'Bandit' and 'Sprinter'. The distinction: the desk edges. Bandit has rounded corners while Sprinter has rectangular ones. The trio becomes complete with the 'Lucky' swivel chair in three different colors. As with all moll collections, universal additions complete the product range - for the greatest possible individual furnishing options.

Your expert for functional and ergonomic study and office furniture

# Height adjustment

## Classic

- » Adjustment method: Hook fitting
- » 10-level height adjustment: from 53 - 82 cm
- » Body height: 1.20 - 1.90 m

### Classic height adjustment

The Classic height adjustment is the functional and inexpensive entry into the world of moll. The manual height adjustment with the established hook fitting has a 10-level adjustment range, which can be set from 53 to 82 cm. In this way, the desk height can be adjusted to the user at any time in an ergonomically correct manner.

# Tilting of the desktop

### Simple lifting

Depending on the product, moll children's desks offer a variety of comfort in adjusting the tilt angle of the desktop. The desktop of the Sprinter and Bandit can easily be tilted due to the integrated spring support. The built-in tilt mechanism with six locking positions enables a child's easy operation.

All moll children's desks are equipped with an anti-slip device free of charge.

**Tilt angle:**  
Bandit and Sprinter to 16°

All table legs provide a printed scale to check the adjusted table height. As a recommendation, the following table can be used, given that the chair is correctly adjusted:

body height	table height	body height	table height
119 cm	~ 53 cm	159 cm	~ 69 cm
127 cm	~ 56 cm	167 cm	~ 72 cm
135 cm	~ 59 cm	175 cm	~ 75 cm
143 cm	~ 63 cm	183 cm	~ 79 cm
151 cm	~ 66 cm	191 cm	~ 82 cm

The body height can deviate depending upon growth around up to 10 cm from the average values.

Further information about the height adjustment and tilting variants:

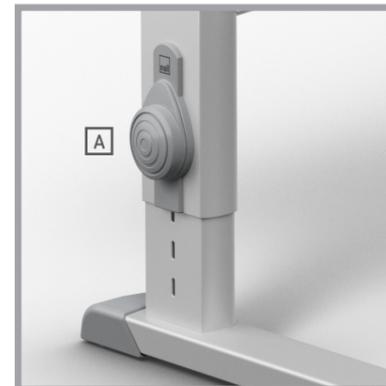

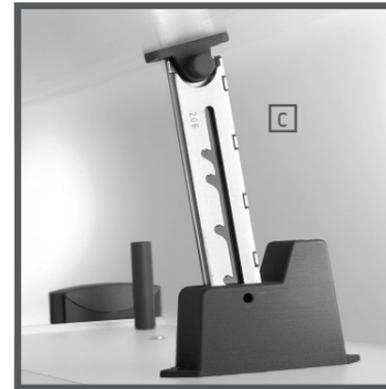

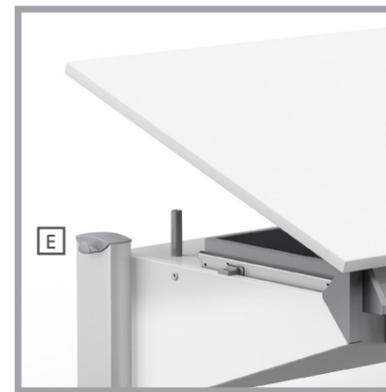

Height adjustments

Tilting variants

# Sprinter

## Features:

Desk model	Desktop	Width (cm)	Depth (cm)	Height (cm)	Design
Sprinter	single-piece	112,8	67,5	53-82	white
Sprinter Compact	single-piece	85,6	67,5	53-82	white

- A** Equipped with the **Classic** height adjustment, which can be set from 53 cm up to 82 cm.
- B** Sprinter is available in two different sizes. The corners of the desktop are rectangular.
- C** With a click-stop of 6 steps the desktop can be tilted easily and without any effort.
- D** Sprinter legs are available in silver.
- E** All Sprinter have an integrated bag hook on each leg and a detachable anti-slip device for the desktop.

The runners are made of powder-coated steel and are equipped with castors in the back part for easy movement of the table.

## Additions:

- F** Drawer
- G** Side Top
- H** easy Flex Deck, easy Memo-set and easy Book-ends

## Included as standard equipment:

- Bag hook
- Anti-slip stop

## Features:

The Mobilight is a piece of moll history: The white design with grey applications gives our moll classic a timeless look.

- A** The white desk light made of aluminum with plastic applications has a turnable light head with an integrated reflector.

Dimensions: 45 cm x 41 cm x 41 cm (WxDxH)  
Net weight: 1,5 kg

- B** The Mobilight has a swiveling arm, which can be adjusted for left and right-handers.

- C** Luminaire LED-head with energy efficiency class: A+

- » Nominal luminous flux 690 lumen
- » Nominal power consumption 6 W
- » Color temperature 3000 K
- » Nominal service life 30,000 h (lamp)

- D** The patented clamp base is suitable for a desktop thickness of 13 to 40 mm.

The 15.5 cm wide base is clamped to the desktop. The light can be easily moved with the built-in castors. The advantage: the light can also be mounted on the inclined desktop and can be used on both flat and tilted desktop in such a way that no shadows are cast.

## <sup>1</sup>Melamine resin-coated wood-based panel:

moll easy wood-based panels are approved according to EN 312 and EN 14322. The formaldehyde class CARB II is complied with, which is based on stricter limit values than the E1 test method according to EN 120. In the case of normal, appropriate and intended use no impairments or damages to health are to be expected according to today's state of knowledge.

## Panel edges:

All panel edges are sealed with high-quality ABS edge band. ABS is a thermoplastic material with excellent material and usage properties. It is impact resistant and provides a high mechanical and thermal resistance.

## <sup>2</sup>KTL coating:

Cathodic dip painting (KTL) is an electrochemical process: The object is coated in a bath of water-based coating paint under a DC voltage of 3,000 volts and 220 to 290 amperes. The primer is environmentally friendly and free of heavy metals. The paint layer combines to form a homogeneous, closed film. The result is a solvent- and corrosion-resistant coating that is resistant to rust, acids and alkalis.

# The promise of moll:

## 5 year of guaranteed quality

moll guarantees its customers a five-year warranty when they purchase a moll desk or chair. Everything about the warranty conditions can be found at: [www.moll-funktion.com](http://www.moll-funktion.com)

## 5 years of guarantee availability

moll also offers five years of guaranteed availability only for moll desks - to ensure that additional equipment is available at all times. You can find all guarantee conditions at: [www.moll-funktion.com](http://www.moll-funktion.com)

## AGR

moll products are awarded with the AGR seal of quality. Aktion Gesunder Rücken (AGR) independently awards the seal of approval to products that are ergonomic and at the same time healthy for the back according to medical guidelines.

## Patents

moll develops all fittings themselves. Many of these innovations are protected by industrial property rights or are patent-registered.

## Label of quality

moll products have been awarded with the „GS mark“, a worldwide recognized seal of quality for tested safety.

## Blue Angel:

moll furniture is certified according to RAL UZ 38 and bears the "Blue Angel" seal of approval.

## Easy to install

moll attaches the greatest importance to a good organized packing and very good assembly instructions, which are prerequisite for quick and easy assembly.

## Our responsibility

We use environmentally friendly and recyclable materials for our production. The mission is to keep the CO2 footprint of our products as small as possible.

## FSC certification

All decorative surfaces are tested for abrasion resistance, stain resistance, scratch resistance, impact resistance and cigarette burns in accordance with EN 14322.

## CARB II

Wood-based materials used by moll are CARB II compliant with stricter limit values than E1 according to test method EN 120. This ensures that in the case of appropriate use no damages to health are to be expected according to today's state of knowledge.

## PEFC

To ensure the protection of our forests, we purchase our wood only from suppliers with the PEFC seal. This guarantees an ecological and socially acceptable sustainable forestry.

## Electrical Equipment Law

Our are registered according to the Electrical and Electronic Equipment Regulations. Wholesalers and specialist shops are obliged to take back waste electrical and electronic equipment at no charge when purchasing a new equivalent device.

## Made in Germany

moll products are engineered and manufactured in Germany according to high quality and safety standards.
