

PRODUCT DESCRIPTION - BUILDING BUCKETS

PRODUCT DESCRIPTION – BUILDING BUCKETS

All our buckets are made of highly flexible recycled raw materials, due to which they are characterized by considerable loading strength and resistance to impact. The buckets have a scale and a reinforced bottom, which makes them stable. They are offered with different capacities and with or without a funnel. It is a practical and handy tool for any kind of construction, renovation or garden work. We also offer printing, e.g. the customer's logo, on all our products.

PRODUCT DESCRIPTION - BUILDING BUCKETS

1. BUILDING BUCKET 5l

- ✓ Product code – 26829/26829ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 182
- ✓ Diameter [mm] - 233
- ✓ Weight [kg] – 0,21
- ✓ Material bucket – PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

2. BUILDING BUCKET 5l with funnel

- ✓ Product code – 26835/26835ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 180
- ✓ Diameter [mm] – 233/246
- ✓ Weight [kg] – 0,21
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

3. BUILDING BUCKET 10l

- ✓ Product code – 26833/26833ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 195
- ✓ Diameter [mm] - 305
- ✓ Weight [kg] – 0,36
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION - BUILDING BUCKETS

4. BUILDING BUCKET 10l high

- ✓ Product code – 26831/26831ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 270
- ✓ Diameter [mm] - 275
- ✓ Weight [kg] – 0,39
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

5. BUILDING BUCKET 12l basic

- ✓ Product code – 26808/26808ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 230
- ✓ Diameter [mm] - 310
- ✓ Weight [kg] – 0,49
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

6. BUILDING BUCKET 12l basic with funnel

- ✓ Product code – 26809/26809ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 228
- ✓ Diameter [mm] – 310/320
- ✓ Weight [kg] – 0,46
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION - BUILDING BUCKETS

7. BUILDING BUCKET 12l Strong

- ✓ Product code – 26812/26812ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 220
- ✓ Diameter [mm] - 318
- ✓ Weight [kg] – 0,5
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

8. BUILDING BUCKET 12l

- ✓ Product code – 26805/26805ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 230
- ✓ Diameter [mm] - 310
- ✓ Weight [kg] – 0,47
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

9. BUILDING BUCKET 12l strong

- ✓ Product code – 26812H26812Hba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 220
- ✓ Diameter [mm] - 318
- ✓ Weight [kg] – 0,60
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION - BUILDING BUCKETS

10. BUILDING BUCKET 16I

- ✓ Product code – 26816/26816ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 258
- ✓ Diameter [mm] - 340
- ✓ Weight [kg] – 0,49
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

11. BUILDING BUCKET 20I

- ✓ Product code – 26823/26823ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 260
- ✓ Diameter [mm] - 385
- ✓ Weight [kg] – 0,68
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

12. BUILDING BUCKET 20I

- ✓ Product code – 26822/26822ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 260
- ✓ Diameter [mm] - 385
- ✓ Weight [kg] – 0,72
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION - BUILDING BUCKETS

13. BUILDING BUCKET 20l with funnel

- ✓ Product code – 26807/26807ba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 260
- ✓ Diameter [mm] – 385/405
- ✓ Weight [kg] – 0,69
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

14. BUILDING BUCKET 20l strong

- ✓ Product code – 26820H/26820Hba
- ✓ Components – bucket + handle
- ✓ Height [mm] - 260
- ✓ Diameter [mm] - 385
- ✓ Weight [kg] – 0,79
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm

Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION – BUILDING CONTAINERS

Building containers are tools needed on every construction site. They are designed for mixing and transporting various tyPE/PPs of dry and wet mortar as well as tools. We offer round and rectangular containers, each of them in three sizes. All containers are made of very durable and flexible material, and they have a scale, profiled handles and a reinforced bottom. We also offer printing, e.g. the customer's logo, on all our products.

1. BUILDING RECTANGULAR CONTAINER 40I

- ✓ Product code – 27040/27040ba
- ✓ Components – plastic container
- ✓ Length [mm] – 695
- ✓ Width [mm] - 390
- ✓ Depth [mm] - 185
- ✓ Weight [kg] – 1,37
- ✓ Material – PE/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

2. BUILDING RECTANGULAR CONTAINER 60I

- ✓ Product code – 27060/27060ba
- ✓ Components – plastic container
- ✓ Length [mm] – 705
- ✓ Width [mm] - 395
- ✓ Depth [mm] - 285
- ✓ Weight [kg] – 1,73
- ✓ Material - PE/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

3. BUILDING RECTANGULAR CONTAINER 80I

- ✓ Product code – 27080/27080ba
- ✓ Components – plastic container
- ✓ Length [mm] – 763
- ✓ Width [mm] - 530
- ✓ Depth [mm] – 305
- ✓ Weight [kg] – 2,31
- ✓ Material - PE/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

4. BUILDING RECTANGULAR CONTAINER 90I

- ✓ Product code – 27091/27091ba
- ✓ Components – plastic container
- ✓ Length [mm] – 763
- ✓ Width [mm] - 530
- ✓ Depth [mm] – 305
- ✓ Weight [kg] – 2,31
- ✓ Material - PE/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

5. BUILDING ROUND CONTAINER 40I

- ✓ Product code – 26944/26944ba
- ✓ Components – plastic container
- ✓ Height [mm] - 290
- ✓ Diameter [mm] - 500
- ✓ Weight [kg] – 1,14
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

6. BUILDING ROUND CONTAINER 40I WITH METAL HANDLE

- ✓ Product code – 26942/26942ba
- ✓ Components – container + handle
- ✓ Height [mm] - 290
- ✓ Diameter [mm] - 500
- ✓ Weight [kg] – 1,48
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

7. BUILDING ROUND CONTAINER 45I

- ✓ Product code – 26945/26945ba
- ✓ Components – plastic container
- ✓ Height [mm] - 225
- ✓ Diameter [mm] - 600
- ✓ Weight [kg] – 1,26
- ✓ Material bucket - PE/PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

8. BUILDING ROUND CONTAINER 60I

- ✓ Product code – 26961/26961ba
- ✓ Components – plastic container
- ✓ Height [mm] - 340
- ✓ Diameter [mm] - 600
- ✓ Weight [kg] – 1,71
- ✓ Material bucket - PE/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

9. BUILDING ROUND CONTAINER 90I

- ✓ Product code – 26990/26990ba
- ✓ Components – plastic container
- ✓ Height [mm] - 375
- ✓ Diameter [mm] - 645
- ✓ Weight [kg] – 2,18
- ✓ Material bucket - LDPE/PP/PP
- ✓ Designed to be used – at the building site, in the garden and on the farm
- ✓ Dimension fluctuations - 6% (due to material shrinking)

PRODUCT DESCRIPTION – PAINTING TOOLS

Our company's offer includes painting articles such as trays, buckets and grates available in various sizes and colour variants.

Paint trays - the paint trays we manufacture are available in several sizes and different colours. The sizes of our trays are adjusted to rollers of 10, 18 and 25 cm respectively. Due to a specially profiled tray surface, the paint is evenly distributed on a roller, and its excess dribbles onto the container. In addition, reinforced legs make the tray stand stable.

Paint grates - the paint grates we manufacture come in several sizes. Thanks to a refined technology, the grate surface is profiled to spread the paint evenly on a roller. Moreover, our grates have a roller holder.

Paint buckets - the paint buckets we offer are available with capacities of 8 l and 12 l; their dimensions are designed to fit widely available paint rollers of 18 and 25 cm. Thanks to innovative solutions applied to create the buckets, their use is effective and efficient.

1. PAINT BUCKET 8L

- ✓ Product code – 14009/14009ba
- ✓ Components – plastic bucket + metal handle
- ✓ Length [mm] – 275
- ✓ Width [mm] - 220
- ✓ Depth [mm] - 180
- ✓ Weight [kg] – 0,298
- ✓ Material bucket – PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Dimension fluctuations - 6% (due to material shrinking)

2. PAINT BUCKET 12L

- ✓ Product code – 14013/14013ba
- ✓ Components – plastic bucket + metal handle
- ✓ Length [mm] – 355
- ✓ Width [mm] - 253
- ✓ Depth [mm] - 205
- ✓ Weight [kg] – 0,464
- ✓ Material bucket - PP
- ✓ Material handle - Steel Bar (Zinc Plated)
- ✓ Dimension fluctuations - 6% (due to material shrinking)

3. PAINT TRAY SMALL

- ✓ Product code – 19961/19961ba
- ✓ Components – plastic tray
- ✓ Length [mm] – 295
- ✓ Width [mm] - 155
- ✓ Depth [mm] – 60
- ✓ Weight [kg] – 0,760
- ✓ Material - PP
- ✓ Dimension fluctuations - 6% (due to material shrinking)

4. PAINT TRAY MEDIUM

- ✓ Product code – 20051/20051ba
- ✓ Components – plastic tray
- ✓ Length [mm] – 325
- ✓ Width [mm] - 258
- ✓ Depth [mm] – 70
- ✓ Weight [kg] – 0,18
- ✓ Material - PP
- ✓ Dimension fluctuations - 6% (due to material shrinking)

5. PAINT TRAY BIG

- ✓ Product code – 20121/20121ba
- ✓ Components – plastic tray
- ✓ Length [mm] – 350
- ✓ Width [mm] - 323
- ✓ Depth [mm] – 70
- ✓ Weight [kg] – 0,21
- ✓ Material - PP
- ✓ Dimension fluctuations - 6% (due to material shrinking)

6. PAINT GRID SMALL

- ✓ Product code – 19815AA/19815ba
- ✓ Components – plastic grid
- ✓ Length [mm] – 305
- ✓ Width [mm] - 230
- ✓ Weight [kg] – 0,72
- ✓ Material - PP
- ✓ Dimension fluctuations - 6% (due to material shrinking)

7. PAINT GRID BIG

- ✓ Product code – 19870AA/19870ba
- ✓ Components – plastic grid
- ✓ Length [mm] – 385
- ✓ Width [mm] - 280
- ✓ Weight [kg] – 0,105
- ✓ Material - PP
- ✓ Dimension fluctuations - 6% (due to material shrinking)
