<https://ass.al/siaa4sp>

Clever twist

Cubas comes with a unique and innovative rotation mechanism. The movable modules can be hand-rotated by 360° completely without tools in order to accommodate changing requirements and individual needs.

Eye-catcher

A multiple award winner, Cubas is the ideal furnishing solution for open-plan and modern working environments as well as in waiting areas and for your home office. The storage space system catches the eye with its excellent functionality and modern design that can be customised in a range of shapes and colours.

Working from home: Cubas as room partitions for home settings

Head-turner: Cubas adds colour to your waiting room

Creating highlights

Cubas is unbeatably versatile and can be combined with the Intavis and Allvia storage space systems. Highly variable, it catches the eye with its excellent functionality and is a perfect furnishing solution for working from home thanks to its appealing design.

Combinable: The Intavis and Cubas storage space systems

Versatile: Stylish wall shelf for your home office

Design variety

The purist design with its combination of metal frame and closed elements accommodates a wide range of looks and uses – whether as room partitions, wall shelves or sideboards.

Wide variety of design options

The bodies, functional shelves and swivel modules in the flexible Cubas furniture system can all be customised and combined with other storage space systems and even enable the addition of Allvia plant pot mounts.

Sufficient space

The versatile Pontis standing and rolling containers can be configured individually with different interior fittings and in different heights and depths.

All the documents and materials you routinely need are reliably on hand with the Pontis containers.

Addition for every workplace

The lockable open space containers provide practical storage space for work materials and personal belongings. At the same time, they also ensure privacy for undisturbed and concentrated work.

Mobile storage solutions for added flexibility

The Pontis mobile containers are fitted with castors, which makes them highly flexible and ideal furnishing solutions for desk sharing workplaces. The mobile storage solutions keep offices tidy and can be parked in container garages after use.

Improved order at the workplace

Pontis technical containers are predestined for storing technical equipment and frequently used materials directly at the workplace. Custom options are available for the function and design of the containers. Whether it is shelves, special pull-out elements, or fronts with handles and even without - Pontis has the right solution for every requirement.
