

Recyclate - Pipe odour trap for washbasin

- Made of recycled plastic
- With adjustment tube
- Including rosette
- 1 1/4", ø 32 mm

Recyclates replace plastic new granules

From used packaging, which consists of recyclable materials, we let create new products. The material properties are almost equivalent to new granules. Permanent controls ensure a constant, consistent quality. The use of recycled materials reduces greenhouse gases by 30% compared to new materials.
