

A circular frame containing a photograph of a person's hand holding a clump of silage film. The film is dark and crumbly, and some particles are falling from it. The background is a light-colored, textured surface.

**EFFICIENT SILAGE FILM  
RECYCLED AND  
RECYCLABLE**

# TRIOCARE™

## PREMIUM SILAGE FILM

Triocare is the Premium film within the Triosilo portfolio. It offers an increased resistance to UV and is available in several colors and a wide range of sizes, which makes it the perfect solution for all different kinds of requirements. The Triocare range is Blue Angel certified since 2021.

Colours	   
Thickness	150µ
Length	25 - 400m
Width	4 - 18m
Resistance (DART)	    
Airtightness (OTR)	    
Handling	    
UV resistance	18 months
Recycled content (PCR)	>85%
Recyclability	100%
Life Cycle Assessment (LCA)	-79%
Product certification	Blue Angel

## TRIOSILO Tips :

If the light color is facing towards the outside, it reduces the temperature rise and the thermal expansion of the film. Thermal expansion affects the permeability of the film.

# Efficient & sustainable silage making

We know the hazards and challenges of the harvest season and we can support you with our many years of experience. If you need help, our silage experts and technical support team is there to support you to improve your yield, efficiency and sustainability in your silage making - all over the world.
