FUNCTION & ADVANTAGES FINETT VISION

Wide range of colours

More than 50 bright and attractive colours invite to design rooms individually.

Sustainable materials

The backings of FINDEISEN carpets are in general made of 100 % recycling fibers.

Economic efficiency

FINETT needed carpets are offered at a reasonable cost, are particularly robust, durable, easy to clean, and hence economical.

Made in Germany

All FINETT qualities are manufactured by FINDEISEN GmbH in Ettlingen (Germany).

Best acoustic values

FINETT **VISION** makes not only offices quieter: The impact sound improvement value amounts to 25 dB; so, it is higher than with every needed carpet on the market (as at 12/2017). The in-room noise in the frequency range relevant to human voices, i.e. between 300 – 5.000 Hz, is reduced by up to 80 %.

Adapted to allergy sufferers

Carpeting reduces the indoor concentration of particular matter by up to 50 % compared with hard floors (source: Deutscher Allergie- und Asthmabund e.V., June 2005).

WINNERS OF DESIGN AWARDS

German
Design Award

NOMINEE 2015
