

WorkForce Pro WF-M5899DWF

DATASHEET / BROCHURE

Low energy MFP mono business printer

Take advantage of low power consumption, a low Total Cost of Ownership (TCO), a fast First Page Out Time (FPOT)¹ and features designed for easy business integration with the WorkForce Pro WF-M5899DWF. This business inkjet multifunction benefits from automatic duplex printing, single-pass duplex scanning, fax, copying and high ink yields making any job easy and efficient.

Save money

The low TCO and fewer replacement parts make this a reliable and attractive choice for businesses on a budget. Low power consumption delivers much needed savings³.

High productivity, low intervention MFP

A fast First Page Out Time (FPOT) of 4.8 seconds from ready mode and single-pass duplex scan increase productivity¹. Print up to 40,000 pages without changing supplies². A paper capacity of up to 1,830 sheets (3 x optional 500 sheet cassettes) means less time spent refilling paper. In addition, the WF-M5899DWF can print on a wide range of media, including recycled paper, glossy media and envelopes.

Reduce your environmental impact

Through fewer consumables and supplies, it also produces less waste. With low power consumption, the overall environmental impact of printing is cut dramatically³.

Built for business

Perfect for small workgroups, a variety of software solutions can be integrated into existing IT infrastructure to improve efficiency. Epson Print Admin creates a secure printing, scanning and copying environment through user-authentication while Epson Remote Services (ERS) with the device embedded agent offers cloud-based device monitoring and management system. Epson Open Platform enables compatibility of the MFP with 3rd party solution partners like PaperCut, MyQ, Y Soft and more.

Heat-Free printing technology

Epson Heat-Free Precision Core Technology requires no heat to warm up when it is switched on or awoken from sleep, which significantly reduces energy consumption. This allows Epson's Heat-Free inkjets to deliver an exceptional fast FPOT¹ compared to laser technology www.epson.eu/heat-free
