ABFALLBEHAELTER & CONTAINER WEBER GmbH & Co. KG

quality made in germany

Weber is one of the leading manufacturers of waste management products and offers a high-quality range of waste containers and litter bins. All Weber products are manufactured exclusively in Haan, Germany using the compact injection moulding process.

Weber containers are the perfect solution for all types of waste and recyclable materials, such as residual waste, paper, glass, packaging etc. and are available in a variety of standard sizes and designs.

Our modern production facilities, combined with continuous internal quality controls and current external inspections by independent testing institutes, guarantee products of the highest quality.

Weber is your reliable partner for the waste management industry!
