Subject:       Application for the Award of the Environmental Label according to DE-UZ 53  
                  for "Construction Machinery"

Dear Sir/Madam,

Your application for the award of the Environmental Label can only be processed without delay when the following are submitted to RAL:

- Product-related informal application on the firm's letter-head paper indicating the federal state being home to applicant's factory that manufactures the products to be marked with the ecolabel.
- Fully completed "Annexes to the contract" pursuant to DE-UZ 53
- Test report in accordance with Paragraph 3.1.2 of DE-UZ 53
- EC Declaration of Conformity (for manufacturers/importers)
- Information on the section of the machine where the guaranteed sound power level is indicated and, where relevant, the section of the product documentation where this value can be found.
- Test report in accordance with Paragraph 3.2.1
- Declaration guaranteeing the durability of the technology used for reducing emissions (for manufacturers/importers)

Expected sales of the products marked with the Environmental Label during the year of application. This information is required only if, so far, no other Contract on the Use of the Environmental Label according to DE-UZ 53 has been concluded with RAL gGmbH.
