Product details

Product name:

Computer platforms (**Chapter 3 of the Award Criteria**)¹:

Software category:

Product description:

☐ mobile device ☐ pc device ☐ server device
Select an item.

¹ If several computer platforms are assigned to software, the requirements must be demonstrated separately for each platform used. Accordingly, several annexes must be submitted. (See Chapter 3 of the Award Criteria)

Please complete all text fields and dropdown fields where applicable.

Other software categories

If the software product cannot be clearly assigned to one of the software categories listed above in accordance with **Chapter 3** of the Award Criteria, the applicant shall demonstrate to the auditor, by means of a calculation, which computer platforms are relevant.

This requirement **Select an item**.

Comment:

Minimum system requirements

The applicant confirms compliance with the requirements for the required minimum system requirements in accordance with **3.1.1.1** of the Award Criteria. The information must be published in accordance with Section **3.1.3.7** and kept up to date in accordance with **Section 3.2.1**. The information corresponds to that in the following documents (Annex 2 and Annex 7).

Compliance with the requirements is **Select an item**. and the information is **Select an item**.

Comment:

Documentation of the measurement setup

The applicant confirms compliance with the quality requirements concerning the measurement setup in accordance with Annex A and enters the required information in the spreadsheet file for criteria recording in Annex 2. At the auditor's request, the applicant demonstrates the measurement setup. The information must be published in accordance with Section **3.1.3.7** of the Award Criteria and kept up to date in accordance with Section **3.2.1**.

Compliance with the requirements is **Select an item**. and the documentation is .

Comment:

Measurement of basic utilization and of the software product load in idle state

The applicant confirms compliance with the requirements in accordance with **3.1.1.3** of the Award Criteria and documents the measured values in the spreadsheet file for criteria recording in Annex 2. In addition, the applicant submits the measurement report (see Annex A of the Award Criteria) as Annex 3. The plausibility of the measurement must be confirmed by the auditor. The measurement results must be published in accordance with Section **3.1.3.7** and kept up to date according to **3.2.1**.

A **Select an item**. carried out.

Note: For the **long-term test for pc devices and server devices** measurement of basic utilization and of the idle state is not required.

Compliance with the requirements is **Select an item.** and the information is **Select an item.**

Comment:

Measurement of the software product during use

The applicant confirms compliance with the requirements and documents the measured values in the spreadsheet file for criteria recording in Annex 2 in accordance with **3.1.1.4** of the Award Criteria. In addition, the applicant submits the measurement report (see Annex A of the Award Criteria) as Annex 3. The plausibility of the measurement must be confirmed by the auditor. The measurement results must be published in accordance with Section **3.1.3.7** kept up to date according to Section **3.2.1**.

A **Select an item.** **for a mobile device** was carried out.

A **Select an item.** **for a pc device** was carried out.

A **Select an item.** **for a server device** was carried out.

Compliance with the requirements is **Select an item.** and the information is **Select an item.**

Comment:

Support for energy management

The applicant declares compliance with the requirement to support energy management in accordance with **3.1.1.5** of the Award Criteria. If the applicant invokes the exception rule, the auditor must confirm that the exception applies and that deactivation is only temporary.

Compliance with the requirements is **Select an item.**

Comment:

Backward compatibility

The applicant declares compliance with the requirements concerning backward compatibility in accordance with **3.1.2.1** of the Award Criteria and documents backward compatibility by naming the computer system including the required software stack and its calendar year or by naming the operating system and its calendar year in the spreadsheet file in Annex 2.

In addition, the applicant marks the relevant passages in the product information and submits the relevant pages of the product information as Annex 6 or provides the related Internet link (URL) to the applicant's own website where this information is published. The operability of the software with the specified system requirements must be demonstrated to the auditor upon request.

Alternative Internet link (URL):

Compliance with the requirements is **Select an item.** and the information is **Select an item.**

Comment:

Data formats

The applicant declares compliance with the requirements for data formats by at least one of the options in accordance with **3.1.3.1** of the Award Criteria and submits the corresponding supporting documents as Annex 4 or, alternatively, provides the related Internet link (URL) to the applicant's own website on which the data formats are documented. The auditor confirms that this documentation is sufficient and understandable.

Alternative Internet link (URL):

Compliance with the requirements is **Select an item.**

Comment:

Transparency of the software product

The applicant declares compliance with the requirements concerning the transparency of the software product in accordance with **3.1.3.2** and submits corresponding supporting documents (interface documentation, permalink of the software source on a source code management platform, software licences or comparable documents) as Annex 5. The auditor checks these documents for completeness.

Compliance with the requirements is **Select an item.** and the information is **Select an item se**

Comment:

Continuity of the software product

The applicant declares compliance with the requirements concerning the continuity of the software product in accordance with **3.1.3.3**, marks the relevant passages in the product information and submits the relevant pages of the product information as Annex 6 or, alternatively, provides the related Internet link (URL) to the applicant's own website where the software updates are indicated.

The auditor confirms that these notices are sufficient and understandable.

The applicant undertakes to offer free security updates for the product to be labelled **(pc device, server device)** for at least 5 years from the end of provision.

The applicant undertakes to keep the product **(mobile device)** secure for at least 3 years after labelling with the ecolabel by offering free security updates where necessary and keeping the product available in an updated version on the respective distribution platform.

Alternative Internet link (URL):

Compliance with the requirements is **Select an item.**

Comment:

Uninstallability

The applicant declares compliance with the requirements concerning deletion of the software in accordance with **3.1.3.4** of the Award Criteria and marks the relevant passages in Annex 6. The auditor confirms that the uninstall description is understandable.

Compliance with the requirements is **Select an item.** and the description is **Select an item.**

Comment:

Modularity

The applicant declares compliance with the requirement for modularity in accordance with **3.1.3.5** of the Award Criteria. The auditor confirms that the modularity description is understandable.

Compliance with the requirements is **Select an item.** and the description is **Select an item.**

Comment:

Absence of advertising and avoidance of tracking

The applicant declares compliance with the requirement for absence of advertising and avoidance of tracking in accordance with **3.1.3.6** of the Award Criteria. The auditor confirms the absence of advertising and tracking or, where an exception is used, its admissibility and documentation.

Compliance with the requirements is **Select an item.**

The exception rule was **Select an item.**

Comment:

Documentation of the software product

The applicant declares compliance with the requirements concerning documentation of the software product in accordance with **3.1.3.7** of the Award Criteria.

The information corresponds to that in the following document (Annex 7).

Compliance with the requirements is **Select an item.** and the information is **Select an item.**

Comment:

Requirements for further development and product updates

The applicant declares compliance with the requirements concerning further development and updates of the software product in accordance with **3.2.1** of the Award Criteria.

Compliance with the requirements is **Select an item.**

Comment:

Annexes to the contract

Please use this template for Annex 1.

The following annexes must be attached to the application documents:

Annex 2 (template):	Spreadsheet file
Annex 3:	Measurement report
Annex 4:	Supporting documents for the data formats
Annex 5:	corresponding supporting documents (interface documentation, permalink of the software source on a source code management platform, software licences or comparable documents)
Annex 6:	Product information
Annex 7:	Documentation for publication on the Blue Angel website

This document (Annex 1) and the spreadsheet file for criteria recording (Annex 2) must be checked and confirmed by the auditor. With the support of the German Environment Agency, RAL gGmbH appoints auditors in accordance with 1.5 and 1.6 of the Award Criteria.
