Subject: Application for the Award of the Environmental Label according to DE-UZ 154
 for "Textiles"

Dear Sir/Madam,

Your application for the award of the Environmental Label can only be processed without delay when the following are submitted to RAL gGmbH:

- Product-related informal application on the firm's letter-head paper indicating the federal state being home to applicant's factory that manufactures the products to be marked with the ecolabel.
- Annex 0: General application form for the Blue Angel (printed form)
- Annex 1: Declarations/compliance verifications for the contract (printed form)

- Para. 3.2.1: if relevant, compliance verifications for the origin of natural fibres, cellulose and other plant-based raw materials
- Para. 3.2.2.1: if relevant, compliance verifications for the production process of recycled fibres
- Para. 3.2.2.2: if relevant, compliance verifications for the production of flax and other bast fibres
- Para. 3.2.2.3: if relevant, compliance verifications for the production of wool and other keratin fibres
- Para. 3.2.2.4: if relevant, compliance verifications for man-made cellulose fibres
- Para. 3.2.2.5: if relevant, compliance verifications for polyester fibres
- Para. 3.2.2.6: if relevant, compliance verifications for polyamide fibres
- Para. 3.2.2.7: if relevant, compliance verifications for polyacrylic fibres
- Para. 3.2.2.8: if relevant, compliance verifications for elastane fibres
- Para. 3.2.2.9: if relevant, compliance verifications for polypropylene fibres
- Para. 3.2.3: Compliance verifications for the biodegradability of auxiliaries and finishing agents for fibres and yarns

- Para. 3.3: if relevant, compliance verifications for the production process for laminates and membranes
- Para. 3.4: if relevant, compliance verifications for the processing of down and feathers
- Para. 3.5: if relevant, compliance verifications for fillings
- Para. 3.6.1: Declarations from the suppliers and if relevant, safety data sheets as compliance verification for the general exclusion of substances with certain properties
- Para. 3.6.2: if relevant, compliance verifications for Special substance requirements in finishing processes
- Para. 3.6.3: compliance verifications for the degradability of textile auxiliaries
- Para. 3.6.4: if relevant, compliance verifications for waste water from the textile finishing process
- Para. 3.6.5: if relevant, compliance verifications for emissions to air in the textile finishing process
- Para. 3.6.6.1: Requirements for specific substances and testing of the end product: Test results on formaldehyde
- Para. 3.6.6.2: Requirements for specific substances and testing of the end product: Test reports on extractable heavy metals
- Para. 3.6.6.3: Requirements for specific substances and testing of the end product: Compliance verifications for Nickel and its compounds
- Para. 3.6.6.4: Requirements for specific substances and testing of the end product: Test results on chlorophenols
- Para. 3.6.6.5: Requirements for specific substances and testing of the end product: Test reports zu phthalates and plasticizers
- Para. 3.6.6.6: Requirements for specific substances and testing of the end product: Test results on organotin compounds
- Para. 3.6.6.7: Requirements for specific substances and testing of the end product: Test results on azo dyes and dispersion dyes
- Para. 3.6.6.8: Requirements for specific substances and testing of the end product: Test results on chlorinated benzenes and toluenes
- Para. 3.6.6.9: Requirements for specific substances and testing of the end product: GS certificate or test report on PAH
- Para. 3.6.6.10: Requirements for specific substances and testing of the end product: Confirmations from the suppliers and Test reports on DMF, DMAc and NMP
- Para. 3.7.1: if relevant, compliance verifications for the change in dimensions during washing and drying
- Para. 3.7.2: if relevant, compliance verifications for the colour fastness to washing
- Para. 3.7.3: if relevant, compliance verifications for the colour fastness to perspiration (acid, alkaline)
- Para. 3.7.4: if relevant, compliance verifications for the colour fastness to rubbing
- Para. 3.7.5: if relevant, compliance verifications for the colour fastness to light

- Para. 3.7.6: if relevant, compliance verifications for the colour fastness to saliva and perspiration
 - Para. 3.7.7: if relevant, compliance verifications for the fabric resistance to pilling and abrasion
 - Para. 3.7.8: if relevant, compliance verifications for the durability of function
 - Para. 3.8: if relevant, photo and compliance verifications for the packaging
 - Para. 3.10: if relevant, compliance verifications for the working conditions
 - Para. 3.11: if relevant, compliance verifications for the alternative processes to the sandblasting of denim
-
- Expected sales of the products marked with the Environmental Label during the year of application. This information is required only if, so far, no other Contract on the Use of the Environmental Label according to DE-UZ 154 has been concluded with RAL gGmbH.
