Blue Angel DE-UZ 203

contain

no palm/palm kernel oil.

palm/palmkernel or derivates thereof.

In total our company purchases per year:

More than 500t of palm/Palm kernel oil

Less than 500t of palm/Palm kernel oil

Certification scheme:

RSPO

Other certification scheme (please explain in a separate annex).

If certified according to RSPO:

Our company is member of RSPO, the membership number is:

Our company is not member of RSPO

Raw materials:

If the raw materials contain palm/palm kernel oil, this is certified 100% „Mass Balance“.

Not all raw materials containing palm/Palm kernel oil are certified according to „Mass Balance“. „MB claim transfer cross referencing“ is used.

Proof:

Delivery notes or invoices are used to proof „MB“-raw materials. A list with all palm/palm kernel oil-based raw materials including the amount of the last year is attached. A delivery note or invoice for each raw material is attached showing that the raw material is certified.

A proof is provided by a RSPO audit. Attached the certificate and the latest audit report.

Further information:

All products manufactured by our company (at the date of this document) that contain palm/palm kernel oil contain only palm/palm kernel oil/derivatives with supply chain certification (IP, SG or MB).

Not all products manufactured by our company (at the date of this document) that contain palm/palm kernel oil contain certified palm oil. We hereby confirm that the certifications selected on page 1 of this document exclusively contain palm/palm kernel oil/derivatives with supply chain certification (IP, SG or MB)<sup>1</sup>. Documentation to this effect will be provided to RAL gGmbH upon request.

Date:

---

<sup>1</sup> Or the "MB claim transfer cross referencing" procedure is used.
