Manufacturer of Polyacrylic Fibres (Company):

Declaration made as a manufacturer of polyacrylic fibres for the company:

for the following products:

1 Acrylonitrile

The residual acrylonitrile content in the raw fibres leaving the production plant is less than 1.5 mg/kg.

We hereby confirm compliance with the requirement. Attached hereto is a test report showing that this criterion is met. Testing is conducted using the following method: extraction with boiling water and quantification by capillary gas-liquid chromatography.

2 Acrylonitrile Emissions

The emissions to air of acrylonitrile (during polymerisation and up to the solution ready for spinning), expressed as an annual average, shall be less than 1 g per kg of fibre produced.

We hereby confirm compliance with the requirement. Attached hereto is a test report according to VDI Guideline 3863, Sheets 1 and 2, evidencing compliance with this criterion.
